Notes to the Financial Statements as at 31 December 2024

Notes to the financial statements, first part

Dear Quotaholders, these explanatory notes form an integral part of the financial statements of ICCREA COVERED BOND S.R.L. (the "Company") as at 31 December 2024.

The Company's business

The Company was established, in the form of a joint-stock company as prescribed by Legislative Decree no. 141 of 2010, as amended, on 8 April 2019 pursuant to Law no. 130 of 30 April 1999 which contains provisions governing the implementation of securitisation transactions in Italy.

The sole purpose of the Company is the acquisition from banks of the assets listed below, for valuable consideration, within one or more issues (including both single transactions and programmes) of Covered Bonds implemented pursuant to Title I-*bis* of Law no. 130 of 30 April 1999 (the "Law no. 130/1999") – as introduced by Legislative Decree no. 190 of 5 November 2021, which, among others, repealed the previously applicable Article 7-*bis* of Law no. 130/1999, concerning:

- (a) eligible assets under Article 129, paragraph 1, of Regulation (EU) No 575/2013, as amended by Regulation (EU) No. 2019/2160, provided that the issuing bank complies with the obligations set forth in Article 129, paragraphs 1-*bis* to 3, of that regulation;
- (b) liquid assets provided for in Article 7-duodecies.

The Company will carry out the activities referred to above according to the terms and conditions and the methods set out in the regulations applicable to the issues of Covered Bonds in accordance with Title I-bis of Law no. 130/1999, as amended and supplemented, and related implementing provisions.

In accordance with the aforesaid provisions of law, and pursuant to Article 1180 of the Italian Civil Code, loans and receivables acquired by the Company, together with the related ancillary elements, included in

segregated assets, and the amounts paid by the related debtors, the credit right related to non-life insurance contracts under Article 7-novies, paragraph 2.a, as well as any other receivable accrued by the assignee Company within the scope of the transaction referred to in Article 7-sexies, are intended to satisfy the rights of the holders of Covered Bonds referred to in Article 7-octies, paragraph 2, of Law 130/1999, which are issued within the scope of the issue transactions in which the Company is involved, to the benefit of which the Company has provided guarantees, and of the counterparties to derivative contracts hedging the risks associated with items included in segregated assets, including those stated in Article 7-decies, and to other ancillary contracts, as well as to pay other transaction costs, on a priority basis with regard to the repayment of loans granted or guaranteed by the banks, including originators, in accordance with Article 7-sexies, letter b), of Law 130/1999.

Eligible assets acquired by the Company within the scope of each transaction or issue program constitute assets that are separate for all purposes from those of the Company and from those relating to any other transaction or issue program, over which no actions may be brought by creditors other than the holders of Covered Bonds issued and any additional creditor referred to in the paragraph above.

Within the limits permitted by the provisions of Law 130/1999, as amended and supplemented, and related implementing provisions, the Company may also carry out any ancillary transaction to be entered into for the provision of guarantees and for the successful completion of transactions or programmes for the issue of covered bonds in which it takes part, including borrowings granted or guaranteed by the issuer bank for liquidity purposes, as well as to carry out transactions to reinvest in eligible assets and in other financial assets of the funds arising from the management of assets acquired in accordance with its own corporate purpose and are not immediately used to satisfy the rights of the holders of Covered Bonds (issued within the scope of these issue transactions) and to pay transaction costs.

Within the scope of Covered Bond issue transactions in which it takes part, in compliance with the provisions of Law 130/1999, as amended and supplemented, and related implementing provisions, the Company may appoint third-party persons or entities both to collect the receivables acquired and to provide cash and payment services, which are in any case necessary to the management of the receivables purchased, and to carry out any other activity permitted under Title 1-*bis* of Law no. 130/1999, as amended and supplemented, and related implementing provisions.

As part of this object, the Company completed a transaction to issue Covered Bonds during 2021.

As part of the transaction, on 28 June 2021, the Company purchased without recourse from the originator banks, pursuant to and for the purposes of the combined provisions of Article 1 and Article 4 of the

Securitisation Law, a portfolio of performing loans which can be identified "in bulk", consisting of residential and commercial mortgage loans originated by the Originators.

The Company financed the purchase of the loans through the issue by each originator bank of a subordinated loan, which took place on 28 June 2021.

Reporting principles

In compliance with the provisions of Article 3, paragraph 2, of Law no. 130/1999, receivables related to each transaction, any related receipts and the financial assets acquired with them constitute segregated assets for all purposes from those of the Company and from those related to other transactions; accordingly, any accounting results from corporate management operations are reported separately from those flowing from segregated assets; the structure of this file reflects separateness, reporting the balance sheet and income statement as at 31 December 2024 relating to the corporate management operations in the financial statements and related explanatory notes, and the result of the transaction to issue Covered Bonds for the 2024 financial year in the annex attached to the financial statements "Information relating to the Covered Bond transaction" (the "Annex").

The financial statements comply with the provisions laid down in Articles 2423 and ff. of the Italian Civil Code and the Italian GAAPs as published by the Italian Accounting Board (*Organismo Italiano di Contabilità*, OIC); therefore, they give a true and fair view of the Company's financial position, results of operations and cash flows for the year in a clear manner.

Therefore, the content of the balance sheet and of the income statement, as regards the reporting of corporate management operations only, is that required by Articles 2424 and 2425 of the Italian Civil Code.

The notes to the financial statements, which have been prepared pursuant to Article 2427 of the Italian Civil Code, provide any and all information that is useful to allow a correct interpretation of the financial statements, and include a specific Annex reporting any information relating to Securitised Operations.

It should be noted that the Italian Civil Code's provisions governing the reporting of the Company's operations have been applied as a result of the exclusion of SPVs under Law no. 130/1999, from the group of entities that can be described as non-bank financial intermediaries following the Reform of Title V that was completed under Legislative Decree no. 141/2010 and subsequent amending decrees, the accounting effects of which were provided for in the abovementioned Legislative Decree no. 136/2015.

Segregated assets, which are reported separately from corporate assets, have been stated in line with the provisions of the Bank of Italy's Order of 29 March 2000, according to which the purchased financial assets, the securities issued and any other transaction completed within the scope of the securitisation transaction are reported and described in a specific table attached to the financial statements, and do not form part of the schedules of financial statements. The annex ("Information relating to the Covered Bond transaction") must be regarded as forming an integral part of these financial statements.

It should be noted that this method of accounting has been applied despite the order ceased to be effective from the repeal, under Legislative Decree no. 136/2015, involving the Legislative Decree no. 87/1992, of which the abovementioned Order of 29 March 2000 had been a direct issue, and although it is not governed by any provision of the Italian Civil Code.

Although following the enactment of Legislative Decree no. 139/2015 by virtue of which important amendments were made to the accounting policies of certain items in the financial statements, there is no regulatory reference that regulates, in place of the aforementioned Order, the financial statements of securitisation SPVs. The Company has therefore applied the options described above, since they are more consistent with the regulatory provisions in force, as well as more suitable in order to provide information on the Company's financial position, results of operations and cash flows which is useful for the users of the financial statements in making decisions of an economic nature and which, at the same time, appears to be important, reliable, comparable and comprehensible, both as regards the corporate management operations and as regards segregated assets.

These options are also based on the compliance with the general principle of continuity in the description of management events in order to make the financial statements more understandable, and have also considered that the accounting treatment of financial assets and/or groups of financial assets and financial liabilities arising in the context of securitisation transactions is still being examined on the part of the bodies responsible for interpreting the statutory accounting standards.

It should be noted that, given that the requirements of Article 2435-bis, paragraph 1, of the Italian Civil Code are met, the financial statements have been prepared in condensed form in accordance with the provisions of the above-mentioned article.

Pursuant to article 2435-bis of the Italian Civil Code, companies that prepare condensed financial statements are exempt from drawing up the cash flow statement and benefit from simplifications in drawing up the balance sheet, the income statement and the explanatory notes.

In particular, as required by Article 2435-bis of the Italian Civil Code, the explanatory notes provide the information required by numbers 3) and 4) of Article 2428 of the Italian Civil Code: therefore, the Report on Operations has not been prepared.

It should be noted that, pursuant to the above-mentioned articles, the Company did not purchase, hold or sell any own quotas and shares of the parent company during the year, not even through trust companies or third parties.

The financial statements, as well as these explanatory notes, have been prepared in Euro units. The items of financial statements have been measured in compliance with the principle of prudence and on a going-concern basis. Pursuant to Article 2423-bis, paragraph 1, point 1-bis, of the Italian Civil Code, the items have been recognised and reported by taking account of the substance of the transaction or of the contract.

In preparing the financial statements, income and costs have been entered on an accruals basis, regardless of the date when the related cash flows occurred. Therefore, account has been also taken of any risks and losses that accrued during the period, even if known after the end of the year.

During the preparation of the financial statements, an assessment was made of whether the requirements were met in relation to the Company's ability to operate as a going concern with a time horizon of at least twelve months after the reporting date of the financial statements. In order to make this assessment, all available information was taken into account, as was the specific activity carried out by the Company whose sole purpose is to carry out one or more issues of Covered Bonds in accordance with Law no. 130/1999.

Since no events or conditions have arisen that could give rise to doubt on the Company's ability to continue as a going concern, these financial statements have been prepared on a going-concern basis.

Exceptional cases pursuant to Article 2423, paragraph 5, of the Italian Civil Code

No exceptional cases occurred, which made it necessary to apply the exceptions under Article 2423, paragraph 5, of the Italian Civil Code.

Changes in accounting principles

There were no changes in accounting principles, which made it necessary to apply the exceptions under Article 2423-*bis*, paragraph 2, of the Italian Civil Code.

The first-time adoption from 1 January 2024 of the new Italian Accounting Board principle OIC 34 Revenue did not have any effect on the Company's financial statements.

Accounting policies

Fixed assets

Intangible assets

They are stated at the historical cost of acquisition and shown net of amortisation carried out over the financial years and charged directly to each item.

Start-up and expansion costs are amortised over a period not exceeding five years.

Receivables

Receivables stated in current assets have been recognised in the financial statements according to the presumed realisable value, in accordance with Article 2435-bis of the Italian Civil Code, which provides for the derogation from the application of Article 2426, paragraph 1, no. 8, of the Italian Civil Code, concerning the recognition of receivables at amortised cost.

The adjustment at presumed realisable value has been made, where required, by setting aside a provision for bad debts.

Cash and cash equivalents

Cash and cash equivalents are measured according to the following criteria:

- bank deposits, postal deposits and cheques (either current account, bank drafts or similar instruments),
 being receivables, are measured at their presumed realisable value. This value normally coincides with
 the nominal value while the estimated net realisable value is shown in cases of difficult collectability;
- money and revenues stamps are measured at nominal value;

 cash and cash equivalents in foreign currencies are valued at the exchange rate prevailing on the reporting date for the financial year.

Equity

The items have been recognised in the Financial Statements at their book value according to the instructions laid down in the Italian Accounting Board principle OIC 28.

Payables

Payables have been recognised in the accounts at their nominal value as required by Article 2435-*bis* of the Italian Civil Code, as an exception to the recognition at amortised cost, provided for in Article 2426, paragraph 1, no. 8, of the Italian Civil Code.

Accruals and deferrals

These have been determined according to the criterion of the actual period of accruals. As regards long-term accruals and deferrals, the conditions that determined their initial recognition have been verified, adopting any appropriate change, if necessary.

Income taxes

The provision for taxes is set aside on an accruals basis; they therefore constitute:

- provisions for taxes paid or to be paid for the year, as determined according to the rates and the regulations in force;
- the amount of taxes deferred or paid in advance in relation to temporary differences arising or reversed during the year.

Value of production

Revenues are stated on an accruals basis, net of returns, allowances, discounts and premiums, as well as any related direct tax.

They mainly relate to the form of replenishment that the corporate management operations are entitled to accrue against segregated assets following the payment of its related operating costs.

Production costs

Costs and charges are charged on an accruals basis and according to their nature, net of returns, allowances, discounts and premiums, in accordance with the principle of matching costs and revenues, and are entered under their respective items as required by the Italian Accounting Board principle OIC 12. In the case of any purchase of services, the related costs are recognised when the service is received, while, in the case of any provision of services on an ongoing basis, the related costs are recognised for the accrued portion.

No provision has been made in the income statement for deferred tax assets and liabilities, as there are no temporary differences between tax burden from the financial statements and theoretical tax burden.

Other information

Significant events that occurred during the year

With reference to the Company no significant events are reported which occurred during the year.

With regard to the international economic cycle, the expansion of global economy continued in the latter part of 2024, albeit with differentiated trends between areas. Consumption continued to support growth in the United States; in other advanced countries, persistent weakness in manufacturing was compounded by signs of a slowdown in services. In China, domestic demand is still suffering from the crisis in the real estate market. The outlook for the global economy is weighed down by international tensions and uncertainty about the economic policies that will be adopted by the new U.S. administration. Moreover, oil prices have risen slightly as have, after large fluctuations, natural gas prices since last autumn.

Eurozone GDP slowed in the autumn months: activity, still weak in industry, also lost momentum in services. On the demand side, the contribution of consumption and investment weakened. Inflation remained around 2%, despite the still high dynamics in the services component, supported by items whose prices adjust more slowly. In December, the ECB Governing Council again cut the interest rate on deposits with the central bank by 25 basis points to 3%.

The cut in official rates is being transmitted to the cost of bank funding and the cost of credit in line with historical regularities. Lending to non-financial companies has declined further amid persistently sluggish demand for credit and still restrictive supply criteria. Businesses have also made net redemptions of bonds. Household credit remains weak, although home purchase loans showed a slight acceleration, reflecting the moderate expansion in demand.

Since the beginning of October, 10-year yields on Italian sovereign bonds have risen; however, the spread against corresponding German bonds has narrowed. Italian stock prices have risen, bucking the trend in the Eurozone, mainly due to the good performance in the financial sector.

In Italy, GDP stagnated in the third quarter of 2024, still held back by weakness in manufacturing against the slight expansion of services and construction. Household consumption showed a significant increase while investment fell sharply and the contribution of net exports was negative.

Based on recent Bank of Italy projections, GDP is projected to accelerate over the three-year period 2025-2027, with growth rates averaging about 1% per year over the period.

With reference to segregated assets, it should be noted that the issue of covered bonds in place, for which reference should be made to the information provided in the Annex "Information relating to the Covered Bond transaction", had a regular performance.

Notes to the financial statements, assets

The items of Assets have been entered in compliance with the Italian GAAPs; the sections on each items describe the criteria that have been applied specifically.

Fixed assets

They only consist of start-up and expansion costs.

These costs have been stated among balance sheet assets because they have a long-term useful life and are systematically amortised within a period not exceeding five years

Current assets

The items of current assets have been measured in accordance with Article 2426, paragraphs from 8 to 11-bis of the Italian Civil Code. The criteria used are set out in the paragraphs of the respective items of financial statements.

Receivables stated in current assets

The balance of receivables stated under current assets (Article 2427, paragraphs 1.6, of the Italian Civil Code) is shown below.

Balance at 31/12/2024	Balance at 31/12/2023	Changes

Changes and maturity of receivables stated in current assets

The table below reports information relating to changes in receivables entered under current assets, as well as information relating to their maturity, if significant.

The composition of items stated under current assets is shown below.

"Tax receivables" related to IRES (Corporate Income) and IRAP (Regional Production Activity) tax credits accrued against the Tax Office in previous financial years, net of taxes for the period, and to withholdings made on interest income accrued on the current account of recurring operations.

"Receivables from others" refer to funds the corporate management must receive from segregated asset management for payment of their operating expenses.

The balance, as detailed above, consists of the amount and the changes in cash and cash equivalents existing at the end of the financial year (Article 2427, paragraph 4, of the Italian Civil Code).

Accrued income and prepaid expenses

These have been calculated according to the accruals principle, through the allocation of revenues and/or costs common to more than one financial year.

Balance at al 31/12/2024	Balance at 31/12/2023	Changes
24,907	20,679	(4,228)

"Accrued income" includes the accrual of the Corporate Servicer fee, i.e. the fee that the corporate management operations collect, on a periodical basis, from segregated assets for the administrative and corporate management service of the Company accruing as at 31 December 2024 and for the year then ended, pursuant to the administrative services agreement.

"Prepaid expenses" include deferred expenses for "Stichting corporate management", which will accrue during the subsequent financial year.

[&]quot;Payables to suppliers" relate to invoices for the provision of services relating to 2024, which (i) had been received and not yet been paid at the date of the end of the financial year and (ii) had not yet been received at the reporting date of the financial statements.

Accrued expenses and deferred income

These have been calculated according to the accruals principle, through the allocation of revenues and/or costs common to more than one financial year.

The table below shows the breakdown of the items under consideration, as recognised in the financial statements.

	Accrued expenses	Deferred income	Total accrued expenses and deferred income
Value at the beginning of the year	17,487		17,487
Change in the year	4,286		4,286
Value at the end of the year	21,773		21,773

[&]quot;Accrued expenses" originate from the cost for the administrative/corporate management of the Company, calculated as per contract on an annual basis, maturing as at 31 December 2024, for which the supplier will invoice in the next financial year.

Notes to the financial statements, income statement

The income statement shows the Company's results of operations for the year.

It provides a description of the operations based on a summary of the positive and negative income components that contributed to determining the results of operations. Positive and negative income components, which have been stated in the financial statements as required by Article 2425-bis of the Italian Civil Code, are broken down according to the recognition within the scope of the various operations i.e. core business, additional and financial operations.

Core business operations identify any income components generated from operations that are carried out on an ongoing basis and in the sector relevant to the performance of operations, which identify and define the peculiar and distinctive part of the economic activity carried out by the Company, for which the same is finalised.

Given the nature of the Company, which has been specifically established for the performance of issues of Covered Bonds, core business operations are aimed at ensuring the survival of the Company by meeting existence costs and at applying the contract provision that allows for a charge-back of them to segregated assets.

Financial operations include operations that generate financial income and costs.

On a residual basis, additional operations include operations that generate income components that form part of ordinary operations but do not fall within the scope of core business and financial operations. The Company does not carry out any additional activity.

Notes to the financial statements, final part

Dear Quotaholders, we confirm to you that these financial statements, which are made up of the balance sheet, the income statement and the notes to the financial statements, give a true and fair view of the Company's financial position and cash flows, the position of Covered Bonds in which the Company participates, and the results of operations for the year, and are consistent with the accounting records. Therefore, you are invited to approve the draft financial statements as at 31 December 2024, which showed a breakeven result, as prepared by the governing body.

The financial statements are true and real and correspond to the accounting records.

Statement of compliance with Financial Statements

The undersigned Daniele Caroni, pursuant to Article 47 of Presidential Decree no. 445/2000, declares that the electronic document in XBRL format, reporting the balance sheet, the income statement and the notes to the financial statements, is in conformity with the corresponding original documents filed with the Company.

Rome, 14 March 2025

ANNEX

Information relating to the Covered Bond transaction

The following is a summary of the information on the Covered Bond transaction put in place as at 31 December 2024.

D. GUARANTEES ISSUED AND COMMITMENTS

As at the reporting date of the financial statements, the Company had not issued guarantees in favour of third parties and there were no commitments in place, except for those envisaged and expressly regulated by the contracts relating to the transaction and concerning the related "segregated assets".

L. COVERED BONDS

In the absence of specific tables of breakdown as required by the Bank of Italy's Order of 15 December 2015, it was deemed appropriate to report any disclosure provided in this section by adopting the information structure that is expressly required for part "F. Securitisation of Receivables" of the abovementioned Order, as appropriately amended in line with Covered Bond transactions in continuity with previous years.

Below is the breakdown of the portfolios assigned to the Company, and the funds borrowed for their acquisition in the form of subordinated loans obtained from the assignor banks, which are further listed in detail in section "L.3 INDICATION OF THE PARTIES INVOLVED" of this document (hereinafter referred to as the "Seller Banks").

Date of assignment	Nominal value of receivables at valuation date	Price of assignment
28.06.2021	674,212,454	671,288,920
07.06.2022	697,488,590	693,772,129
26.01.2023	498,309,958	494,164,140
10.08.2023	877,510,696	871,551,841
20.02.2024	832,502,004	825,657,641
15.05.2024	987,863,171	984,397,245

Any subordinated loan disbursed by the Seller Banks at the same time as the dates of purchase of the receivables in an amount equal to the price of assignment, are regulated by interest to be paid out on each payment date, equal to an amount corresponding to the sum of:

- an amount (the "Base Interest") calculated by multiplying the amount of each subordinated loan disbursed by the applicable rate and the days corresponding to the relevant accrual period;
- an amount (the "Premium") equal to the difference between the funds available on account of interest of the guarantor, arising from the amounts collected and assigned by the assignor, and any other amount whose payment is due on a priority basis in accordance with the priority order of payments.

Loans may be repaid on each payment date in accordance with the applicable priority order of payments and within the limits of funds available on account of capital, provided that such payment does not result in a violation of the tests contained in the contracts.

PERFORMANCE OF THE TRANSACTION

Structure, form and accounting policies used to prepare the Summary Statement of Securitised

Assets and the Notes Issued

The structure and form of the summary statement provided therein are in line with those required by the

Bank of Italy's Order of 29 March 2000, "Schedules of financial statements of loan securitisation

Companies", a direct issue of Legislative Decree no. 87 of 27 January 1992 (subsequently repealed by

Legislative Decree no. 136/2015), which regulates the segregation of securitised from corporate

operations, in accordance with the principle of legal segregation laid down in Law no. 130/1999.

It should be noted that, pending official rulings in this regard, these policies are not affected by the

measurement changes made by Legislative Decree 139/15. The accounting policies applied are, in fact,

the most suitable option to reflect the financial features of the specific nature of the Company's business

and to allow the reconciliation of these financial statements and the remaining financial reporting that

is required to be submitted by the Company.

The entries connected to the loans among segregated assets correspond to the values inferred from the

accounting and the reports of the Seller Banks as Servicers and Iccrea Banca S.p.A., as Master Servicer,

as it has properly notified in accordance with the provisions of the Servicing Agreement.

The amounts are stated in Euro units.

The accounting policies adopted for the most significant items are described below.

A. Securitised assets

A.1 Receivables

Receivables are initially recognised at the value at the date of purchase, which is then revised during

the transaction to reflect receipts, on account of both capital and interest, which occurred during the

period. Periodically, Servicers provide their book value determined in accordance with the relevant

accounting standards they use to prepare the relevant financial disclosures (IFRS 9), which requires

them to be measured at amortised cost, through the effective interest rate method, as well as the

recognition of value adjustments on a forward-looking basis to estimate Expected Credit Losses

(ECLs).

B. Uses of liquidity

B. 3 Liquidity

The credit balances in current accounts held with banks are entered in the financial statements at their

nominal value, corresponding to their presumed realisable value and include the interest accrued at the

date of this disclosure.

ICCREA COVERED BOND S.R.L.

 $Company\ subject\ to\ Management\ and\ Coordination\ pursuant\ to\ art.\ 2497\ and\ ff.\ of\ the\ Italian\ Civil\ Code:$

B. 4 Investments and investments treated as Liquidity

This item includes the receipts that had already been collected on the receivables as at the reporting date of the financial statements, but not yet credited to the Company's current accounts.

B.6 Other receivables

These include the receipts on receivables subject to giro account transfer as at the reporting date of the financial statements, and deductions made on interest income accrued on current accounts opened in favour of segregated assets, as at that date.

D. Loans received

The amount is stated at nominal value.

E. Other liabilities

Payables are stated at nominal value.

Accrued expenses have been calculated on an accruals basis, by applying the principle of matching costs to revenues.

Interest, commissions, income and charges

Costs and revenues referable to purchased assets, interest, commissions, income and charges arising from the transaction have been accounted for on an accruals basis.

Settlement of segregated assets

From the Summary Statement below, it can be inferred that the management of segregated assets recorded a break-even result, through the allocation of the positive margin accrued in 2024 to the entity that had granted the subordinated loan in the form of additional remuneration.

Therefore, total assets coincide with total liabilities of segregated assets.

residential and commercial mortgage loans.

The features of the purchased receivables were published, in detail, in the Official Gazette (*Gazzetta Ufficiale*), part II, no. 60 of 23 May 2024, in order to also notify the debtors that the assignment had taken place.

Quality of receivables purchased:

At the time of the assignment, receivables were classified as performing loans on the basis of the criteria applied by the Sellers in compliance with the regulations issued by the Bank of Italy.

1) Performance of the transaction

The transaction is being carried out regularly, no irregularities have been reported with respect to th provisions under the contractual documentation.

Specifically, in relation to the payments referable to subordinated loans, it should be noted that they wi be made in accordance with the payment priority order prepared by the Guarantor Calculation Agent.

2) Information relating to the performance of receivables

Compliance with the ratios indicated below is checked on a quarterly basis by the Asset Monitor of th transaction, which prepares, on a quarterly basis and at the request of the issuer of the Covered Bonds, Report which analyses the following benchmarks:

- Nominal Value Test: the overall nominal value of the assets comprising the segregated assets must be equal at least to the nominal value of the Covered Bonds in place;
- Net Present Value Test: the present value of the assets comprising the segregated assets, net of a
 transaction costs to be borne by the Guarantor, including expected costs and charges froi
 derivative contracts (if any) entered into to hedge financial risks in relation to the transaction

must be equal at least to the net present value of the Covered Bonds in place;

Interest Coverage Test: interest and any other income generated from assets comprising the segregated assets, net of costs to be borne by the Guarantor, must be sufficient to cover interest and costs payable by the issuing bank on the Covered Bonds in place, taking account of derivative

contracts (if any) entered into to hedge financial risks in relation to the transaction;

- Liquidity Buffer Target Amount Test: it verifies, on an ongoing basis, throughout the term of the Programme, that the assets comprising the segregated assets include a cash reserve equal to at

least the maximum cumulative net cash outflow for the subsequent one hundred and eighty days;

- Minimum OC Requirement Test: it verifies that a minimum overcollateralization requirement of 5% is met in accordance with the provisions of Article 129 of Regulation (EU) No 575/2013

("CRR").

It is confirmed that the abovementioned ratios had been complied with until the reporting date.

Obligations of the sellers

At the date of assignment, the Company in its capacity as Guarantor and the Seller Banks entered into a guarantee and indemnity agreement pursuant to which the assignors made specific representations and warranties in favour of the Guarantor in relation to the portfolio of receivables assigned and agreed to indemnify the Guarantor in relation to certain costs, expenses and liabilities which the latter should incur in relation to the purchase and ownership of the portfolio.

For the illustration of any other possible obligations of the assignor and of any other party involved in the transaction for any reason whatsoever, reference is made to paragraph "L.5 Additional financial transactions".

Contractual relationships between the parties involved

ANNEX TO THE FINANCIAL STATEMENTS AS AT 31 DECEMBER 2024

The Guarantor has appointed the Seller Banks, as Servicers, and Iccrea Banca S.p.A., as Master Servicer, for the management of receipts on the loans in the segregated assets. Pursuant to Law no. 130/1999, they are responsible for monitoring the transaction so that it may be carried out in accordance with law and the prospectus.

Any receipts from the receivables are credited to the Collection Account, which is registered in the name of the Guarantor and held with the Account Bank (BNP Paribas SA).

On the basis of the reports provided by the Servicers and the Master Servicer in relation to the performance of the transaction and, more specifically, to the receipts on receivables and the other items which contribute to the setting-up of the funds available to the Guarantor, Banca Finanziaria

Internazionale S.p.A., in its capacity as Guarantor Calculation Agent, distributes these funds at each date of payment on account of fees and expenses to the various persons which have been appointed to carry out specific functions for the segregated assets and by way of remuneration of subordinated loans. Paragraph L.4) considers, more in detail, the funds available to the Guarantor and the priority order that it is required to comply with in order to make payments to the counterparties.

On the contrary, the management of administrative and accounting services is the responsibility of Banca Finanziaria Internazionale S.p.A., in the capacity as Guarantor Corporate Servicer.

The role of Representative of the Covered Bond holders is carried out by Banca Finanziaria Internazionale S.p.A.

Annex to the Financial Statements AS at 31 December 2024

Allocation of cash flows arising from the portfolio of receivables

The allocation of the cash flows arising from the portfolio of purchased receivables follows the order

provided for in the Intercreditor Agreement, or Agreement between the creditors of the issuer.

The funds made available by the issuer are allocated according to the following priority order.

Waterfall relating to the application of available funds on account of interest:

• payment of corporate expenses and reinstatement of the Retention Amount;

payment of fees to the Representative of the bondholders;

payments of fees to the Company's Agents and the swap counterparty (if any);

payment of the Cash Reserve Amount;

allocation to available funds on account of principal for an amount equal to the funds on account

of principal allocated to available funds on account of interest on the previous payment dates and

not yet repaid;

payment of the base interest accrued on each loan to Subordinated Lenders;

payment of additional amounts due to the swap counterparty;

payment of the accrued premium on each loan to Subordinated Lenders.

Waterfall relating to the application of available funds on account of principal:

• transfer of an amount equal to the shortfall, if any, occurring on the current payment date, in the

event that available funds on account of interest are insufficient for the payment of corporate

expenses, the reinstatement of Retention Amount, the payment of fees to the Representative of

the Covered Bonds and the Company's other Agents, the payment to the swap counterparty, and

the payment of Cash Reserve Amount, according to the priority order applicable on account of

interest;

payment of the price of new loan portfolios or other assets;

payments on account of principal (if any) due to the swap counterparty;

repayment, if requested by the lenders and provided this does not result in a breach of tests

conducted by the Asset Monitor and the Test Calculation Agent, of Subordinated Loans;

allocation of unused funds to the Collection Account according to the highest priority items.

L.5 ADDITIONAL FINANCIAL TRANSACTIONS

It should be noted that, as from the first payment date of the guarantor, a Cash Reserve Amount will be set aside equal to the sum of:

- the Company's expenses to be paid on the next two payment dates;

- the fees due to the senior agents to be paid on the next two payment dates;

ICCREA COVERED BOND S.R.L.

- the coupons maturing in the next two quarters for each of the Covered Bonds.

This reserve thus ensures, even in the event of the issuer's default, the payment of the Guarantor's senior expenses, as well as the payment of coupons on the Covered Bonds issued for the next two quarters. This reserve, which is restated and updated on each payment date of the Company, amounted to Euro 75,007,903 as at the reporting date for the financial statements for the Financial Year.

L.6 OPERATIONAL POWERS OF THE ASSIGNEE COMPANY

The Company, as assignee and Guarantor, has operational powers limited by its articles of association.

Specifically, section 3 provides that:

"The Company's sole purpose is the purchase from banks, for valuable consideration, within the scope of one or more issues (including both individual transactions and issue programmes) of Covered Bonds carried out in accordance with Article 7-bis of Law 130 of 30 April 1999, the Ministry of Economy and Finance's Decree 310 of 14 December 2006 and the Supervision provisions for banks laid down in the Bank of Italy's circular letter 285 of 17 December 2013, as amended and supplemented and related implementing provisions, concerning:

(i) land and mortgage loans, even if identified in bulk;

(ii) receivables from public authorities or guaranteed by them and securities issued or guaranteed under

the same terms and conditions, even if identified in bulk;

(iii) securities issued within the scope of securitisation transactions concerning loans and receivables of

the same nature;

(iv) additional eligible assets or supplementary eligible assets that are permitted by the aforesaid

regulation,

by taking out loans, which are also granted or guaranteed by the assignor banks, as well as the provision

of guarantees for the bonds issued by the same banks or by any other bank.

The Company will carry out the activities referred to above according to the terms and conditions and the methods set out in the regulations applicable to the issues of Covered Bonds in accordance with Article 7-bis of Law 130 of 30 April 1999, as amended and supplemented, and related implementing provisions. In accordance with the aforesaid provisions of law, the receivables and securities purchased by the Company and the amounts paid out by the related debtors are aimed at satisfying the claims – even pursuant to Article 1180 of the Italian Civil Code - of the holders of the Covered Bonds referred to in article 7-bis, paragraph 1, of Law no. 130 of 30 April 1999 and issued within the context of the issues in which the Company participates to the benefit of which the Company has provided guarantees, as well

which the Company participates to the benefit of which the Company has provided guarantees, as well

as of the counterparties to the derivative contracts entered into to hedge the risks associated with the

receivables and securities purchased and to any other additional contract. They are also aimed at the

payment of other transaction costs, on a priority basis with respect to the repayment of loans, which are

ICCREA COVERED BOND S.R.L.

COMPANY SUBJECT TO MANAGEMENT AND COORDINATION PURSUANT TO ART, 2497 AND FF. OF THE ITALIAN CIVIL CODE: ICCREA BANCA S.P.A. - ISTITUTO CENTRALE DEL CREDITO COOPERATIVO

also granted or secured by the assignor banks pursuant to article 7-bis, paragraph 1, of Law no. 130 of 30

April 1999.

Any receivables and securities purchased by the Company within each issue or programme constitute

assets which are separate for all purposes both from the Company's assets and from those relating to

other issues or programmes, in relation to which no actions may be taken by any creditors other than the

holders of the Covered Bonds issued and by the additional creditors referred to in the previous paragraph.

Within the limits permitted by Law no. 130 of 30 April 1999 and related implementing provisions, the

Company may also carry out additional transactions to be entered into for the provision of guarantees and

the successful completion of the issues or programmes of Covered Bonds in which it participates, as well

as carry out transactions of re-investment in eligible assets and supplementary eligible assets, and in other

financial assets of funds deriving from the management of the receivables and securities which are

purchased pursuant to this corporate purpose and which are not immediately used to satisfy the rights of

the holders of the Covered Bonds (issued within these issues) and to pay transaction costs.

Within the issue of the Covered Bonds in which the Company participates, in compliance with the

provisions of Law no. 130 of 30 April 1999, and related implementing provisions, the Company may

appoint third-party persons both for the collection of any purchased receivables and for the provision of

such cash and payment services and it may also carry out any other activity permitted by article 7-bis of

Law no. 130 of 30 April 1999 and related implementing provisions."

All the main operational activities connected with the management of the transaction have been

contracted out to third parties (see point L.3).

Balance of receivables at the end of the Year	3,818,266,068	2,372,754,946

During 2024, some assignor banks repurchased loans totalling Euro 27,656,788. Following appropriate audits put in place by the Test Calculation Agent, it was established that the exercise of the repurchase option did not result in any violations of the Cover Pool Tests during 2024.

L.8) TREND IN OVERDUE RECEIVABLES

Receivables in the portfolio as at the reporting date have been adjusted as appropriately notified by the Servicers in order to align the book value of the portfolio to its presumed realisable value, which reflects their actual recovery prospects.

During the transaction the credit control departments of the Servicers and of the Master Servicer continue to monitor the receivables and take recovery actions according to the manners set out in the Servicing Agreement.

L.9) CASH FLOWS

Inflows	31/12/2024	31/12/2023
Receipts credited by the Servicer to the	504,325,280	273,927,022
Collection Account	304,323,280	213,921,022
Payment of net fees on current accounts	7,658,033	3,528,533
Total Inflows during the Year	511,983,313	277,455,554
Outflows	31/12/2024	31/12/2023
Payment of interest on subordinated loan	3,578,084	4,631,385
Interest debt on subordinated loan	53,864,963	36,043,280
Debt for subordinated loan	0	2,554,376
Payment of portfolio price	182,107,735	130,574,020

Suppliers	1,228,746	678,748
Expenses for services provided by counterparties	137,725	99,391
Bank expenses	23,699	21,461
Total Outflows during the Year	241,047,318	174,696,944
Reconciliation of flows	31/12/2024	31/12/2023
Opening cash balance	193,463,023	90,704,413
Inflows	511,983,313	277,455,554
Outflows	241,047,318	174,696,944
Closing cash balance	464,399,018	193,463,023

The imbalance between inflows and outflows represents the balance of current accounts as at 31 December 2024 (item B.3 of statement L.1).

It should be noted that some of the cash flows shown in the tables reported above occurred by offsetting asset and liability flows: in particular, the price for the assignment of the portfolio was paid by offsetting it against the disbursement of the related loan.

The reconciliation between the amount of receipts stated in table L.7 (Euro 506.8 million) and table L.9 (Euro 504.3 million), respectively, is carried out by deducting from the amount of Euro 504.3 million the amount of Euro 5.6 million resulting as a receivable for amounts to be received in 2023 (item B.4.a. of statement L.1) and the amount of Euro 870,880 resulting as transitory collection account (item B.6.b. of statement L.1) and by adding the amount of Euro 7.9 million resulting as a receivable for amounts to be received for 2024 and the amount of Euro 991,319 resulting as transitory collection account.

The amounts actually collected during 2024 totalled Euro 504.3 million, while expected receipts as at 31 December 2024 were equal to Euro 196.5 million. The deviation from the forecast is largely attributable to the purchase of the additional portfolios that occurred in February and May 2024.

On the basis of the financial plans provided by the Servicers, it is expected that the receipts arising from receivables will come to about Euro 304.7 million during 2025.

L.10) SITUATION OF GUARANTEES AND LIQUIDITY FACILITIES

No guarantees or liquidity facilities were in place as at 31 December 2024.

L.11) BREAKDOWN BY RESIDUAL MATURITY

Residual Maturity	Balance of Receivables – FY 2024

Total receivables at the end of the Year:	3,825,771,309

It should be noted that the total only refers to the principal amount due and overdue Item A.1.a and item A.1.c of statement L.1).

L.12) BREAKDOWN BY GEOGRAPHICAL AREA

As at 31 December 2024 all receivables were denominated in Euros and related to debtors resident in Italy.

L.13) RISK CONCENTRATION

Classes of amount (Euro)	Number of Customers	Balance of Receivables – FY 2024
01) 0 - 25,000	764	13,380,468
02) 25,001 - 75,000	11,252	611,077,755

Independent auditor's report (Translation from the original Italian text)

To the Quotaholders of Iccrea Covered Bond S.r.I.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Iccrea Covered Bond S.r.I. (the "Company"), which comprise the balance sheet as at 31 December 2024 the income statement for the year then ended, and the notes to the financial statements.

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31 December 2024 and of its financial performance for the year then ended in accordance with the Italian regulations governing financial statements.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matters

We draw attention to the "first part" of the notes to the financial statements where the Sole Director states that the Company has the sole purpose of acquiring of loans and receivables and securities through funding, pursuant to Law No. 130 of 30 April 1999, in connection with Covered Bonds transactions. As explained by the Sole Director, the Company has reported the financial assets purchased and the other transactions carried out in connection with Covered Bonds in the notes to the financial statements in compliance with Italian Law No. 130 of 30 April 1999, according to which the loans and receivables related to each Covered Bonds transaction are separated for all purposes from those of the Company and from those of other transactions. Our opinion is not qualified in respect of this matter.

Other matters

This report is not issued pursuant to the provisions of the Italian law, as the Company is not subject to the statutory audit pursuant to art. 2477 of the Italian Civil Code.

As required by the law, the notes to the financial statements include the condensed financial information of the entity that exercises management and coordination over the Company. Such financial information has not been audited by us.

Responsibilities of Sole Director for the Financial Statements

The Sole Director is responsible for the preparation of the financial statements that give a true and fair view in accordance with the Italian regulations governing financial statements, and, within the terms provided by the law, for such internal control as he determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Sole Director is responsible for assessing the Company's ability to continue as a going concern and, when preparing the financial statements, for the appropriateness of the going concern assumption, and for appropriate disclosure thereof. The Sole Director prepares the financial statements on a going concern basis unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we have exercised professional judgment and maintained professional skepticism throughout the audit. In addition:

- we have identified and assessed the risks of material misstatement of the financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- we have evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Sole Director;
- we have concluded on the appropriateness of Sole Director's use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty exists
 related to events or conditions that may cast significant doubt on the Company's ability to
 continue as a going concern. If we conclude that a material uncertainty exists, we are required
 to draw attention in our auditor's report to the related disclosures in the financial statements
 or, if such disclosures are inadequate, to consider this matter in forming our opinion. Our
 conclusions are based on the audit evidence obtained up to the date of our auditor's report.
 However, future events or conditions may cause the Company to cease to continue as a going
 concern:
- we have evaluated the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We have communicated with those charged with governance, identified at an appropriate level as required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
