The Class B Notes are not being offered pursuant to this Prospectus.

This Prospectus is issued pursuant to Article 2, paragraph 3, of Italian Law No. 130 of 30 April 1999 (the "Law 130" or also the "Securitisation Law") in connection with the issuance of the Notes. This Offering Circular is a prospectus with regard to Directive 2003/71/EC of the European Parliament and of the Council of 4 November 2003 (the "Prospectus Directive 2003/71/EC") and relevant implementing measures in Ireland.

The Prospectus has been approved by the Central Bank of Ireland (the "Central Bank"), as competent authority under the Prospectus Directive 2003/71/EC. The Central Bank only approves this Prospectus as meeting the requirements imposed under Irish and EU law pursuant to the Prospectus Directive 2003/71/EC. Application has been made to the Irish Stock Exchange for the Class A Notes to be admitted to the Official List and trading on its regulated market. Such approval relates only to the Class A Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange or other regulated markets for the purposes of Directive 2004/39/EC or which are to be offered to the public in any Member State of the European Economic Area. No application has been made to list the Class B Notes on any stock exchange.

All payments of principal and interest on the Notes will be made free and clear of any withholding or deduction for Italian withholding taxes, subject to the requirements of Legislative Decree No. 239 of 1 April 1996 as amended by Italian Law No. 409 of 23 November 2001 and as subsequently amended and supplemented, unless the Issuer is required by any applicable law to make such a withholding or deduction. If any withholding tax is applicable to the Notes, payments of interest on, and principal of the Notes will be made subject to such withholding tax, without the Issuer or any other Person being obliged to pay any additional amounts to any holder of Notes of any Class as a consequence.

The Notes will be held in dematerialised form on behalf of the beneficial owners as of the Issue Date, until redemption or cancellation thereof, by Monte Titoli S.p.A. ("Monte Titoli") for the account of the relevant Monte Titoli Account Holder (as defined below). The expression "Monte Titoli Account Holder" means any authorised financial intermediary institution entitled to hold accounts on behalf of its customers with Monte Titoli and includes any depository banks appointed by Clearstream Banking S. A. ("Clearstream") and Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"). Monte Titoli shall act as depository for Clearstream and Euroclear. The Notes will at all times be evidenced by book-entries in accordance with the provisions of article 83-bis of the Legislative Decree No. 58 of 24 February 1998 and regulation of 22 February 2008 jointly issued by the Commissione Nazionale per le Società e la Borsa ("CONSOB") and the Bank of Italy, as subsequently amended and supplemented.

Calculations as to the expected average life of the Class A Notes can be made based on certain assumptions as set out in the section "Weighted Average Life of the Class A Notes", including, but not limited to, the level of prepayments of the Claims. However, there is no certainty neither that the assumptions made will materialize nor that the Class A Notes will receive their full principal outstanding and all the interest accrued thereon and ultimately the obligations of the Issuer to pay principal and interest on the Class A Notes could be reduced as a result of losses incurred in respect of the Portfolios. If the Notes cannot be redeemed in full on the Final Maturity Date, as a result of the Issuer having insufficient funds available to it in accordance with the Conditions for application in or towards such redemption, the Issuer will have no other funds available to it to be paid to the Noteholders, because the Issuer has no assets other than those described in

this Prospectus. If any amounts remain outstanding in respect of the Notes upon expiry of the Final Maturity Date, such amounts (and the obligations to make payments in their respect) will be deemed to be released by the Noteholders and the Notes will be cancelled. The amount and timing of repayment of principal under the Claims will affect also the yield to maturity of the Notes, which cannot be predicted depending, inter alia, on the level of prepayments which will occur under the Portfolios. The Notes will be subject to mandatory pro-rata redemption in whole or in part on each Payment Date. Unless previously redeemed in accordance with their applicable terms and conditions (the "Conditions"), the Class A Notes will be redeemed on the Payment Date falling in December 2052 (the "Final Maturity Date"). The Notes of each Class will be redeemed in the manner specified in Condition 6 (Redemption, Purchase and Cancellation). Before the Final Maturity Date the Notes may be redeemed at the option of the Issuer at their Principal Amount Outstanding together with accrued interest to the date fixed for redemption under Condition 6.4 (Optional Redemption).

Interest on the Notes will accrue from 2 October 2012 (the "Issue Date") and will be payable on 18 December 2012 (the "First Payment Date") and thereafter quarterly in arrears on the 18<sup>th</sup> day of March, June, September and December in each year or if any such day is not a day on which banks are open for business in Dublin, London, Rome and Milan and on which the Trans-European Automated Real Time Gross Transfer System (or any successor thereto) is open (a "Business Day") the following Business Day (each a "Payment Date"). The Notes will bear interest from (and including) a Payment Date to (but excluding) the following Payment Date (each an "Interest Period") provided that the first Interest Period (the "Initial Interest Period") shall begin on (and include) the Issue Date and end on (but exclude) the First Payment Date. The Class A Notes shall bear interest at an annual rate equal to the lower of (i) the Euro-Zone Inter-bank offered rate for three month deposits in Euro (the "Three Month EURIBOR") (or in the case of the Initial Interest Period, the linear interpolation between the Euro-Zone Inter-bank offered rate ("Euribor") for 2 month and 3 month deposits in Euro) plus a margin of 0.20% per annum in relation to the Class A Notes and (ii) 8% per annum.

The Class A Notes are expected, on issue, to be rated A2(sf) by Moody's Italia S.r.l. and A(sf) by Standard & Poor's Credit Market Services Italy S.r.l. (Standard & Poor's Credit Market Services Italy S.r.l. together with Moody's Italia S.r.l. the "Rating Agencies"). As of the date of this Prospectus, each of Moody's Italia S.r.l. and S&P is established in the European Union and was registered on 31 October 2011 in accordance with Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended by Regulation (EU) No. 513/2011 of the European Parliament and of the Council of 11 May 2011 (the "CRA Regulation") and is included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority (for the avoidance of doubt, such website does not constitute part of this Prospectus). In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation unless the rating is provided by a credit rating agency operating in the European Union before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused. No rating will be assigned to the Class B Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal by the assigning rating organisation. The Class A Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") or any other state securities laws of the U.S. and may be subject to U.S. tax laws. Subject to certain exceptions, the Class A Notes may not be offered or sold within the U.S. or for the benefit of U.S. Persons (as defined in Regulation S under the Securities Act). See "Subscription and Sale".

#### **RISK FACTORS**

The following is a description of certain aspects of the issue of the Notes of which prospective Noteholders should be aware. It is not intended to be exhaustive and prospective Noteholders should make their own independent valuation of all of the risk factors and should also read the detailed information set forth elsewhere in this Prospectus and in the Transaction Documents. Additional risks and uncertainties not presently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations.

#### 1. THE ISSUER

#### 1.1 Liquidity and Credit Risk

The Issuer is subject to the risk of delay arising between the scheduled payment dates and the date of receipt of payments due from the Borrowers. The Issuer is also subject to the risk of, among other things, default in payments by the Borrowers and the failure of the Servicers to collect and recover sufficient funds in respect of the Portfolios in order to enable the Issuer to discharge all amounts payable under the Notes. These risks are mitigated by the liquidity and credit support provided by, in respect of the Class A Notes, the subordination of the Class B Notes and the Cash Reserves.

However in each case, there can be no assurance that the levels of credit support and the liquidity support provided by the subordination of the Class B Notes and the Cash Reserves (in the case of Class A Notes) will be adequate to ensure punctual and full receipt of amounts due under the Class A Notes.

In each case the performance by the Issuer of its obligations thereunder is dependent on the solvency of the Servicers (or any permitted successors or assignees appointed under the Servicing Agreement) and the other parties to the Transaction Documents as well as the timely receipt of any amount required to be paid to the Issuer by the various agents and counterparts of the Issuer pursuant to the terms of the Transaction Documents.

In some circumstances (including after service of a Trigger Notice), the Issuer could attempt to sell the Portfolios, but there is no assurance that the amount received on such a sale would be sufficient to repay in full all amounts due to the Noteholders.

Recent events in the securitisation markets, as well as the debt markets generally, have caused significant dislocations, illiquidity and volatility in the market for asset-backed securities, as well as in the wider global financial markets. As at the date of this Prospectus, the secondary market for asset-backed securities is continuing to experience disruptions resulting from, among other factors, reduced investor demand for such securities.

This has had a materially adverse impact on the market value of asset-backed securities and resulted in the secondary market for asset-backed securities experiencing very limited liquidity. Structured investment vehicles, hedge funds, issuers of collateralised debt obligations and other similar entities have been experiencing funding difficulties and have been forced to sell asset-backed securities into the secondary market. The price of credit protection on asset-backed securities through credit derivatives has risen materially. Limited liquidity in the secondary market may continue to have an adverse effect on the market value of asset-backed securities, especially those securities that are more sensitive to prepayment, credit or interest rate risk and those securities that have been structured to meet the requirements of limited categories of investors. Consequently, whilst these market conditions continue to persist, an investor in the Notes may not be able to sell or acquire credit protection on its Notes readily and market values of the Notes are likely to fluctuate. Any of these

fluctuations may be significant and could result in significant losses to Noteholders.

It is not known for how long these market conditions will continue and it cannot be assured that these market conditions will not continue to occur or whether they will become more severe.

## 1.2 Issuer's ability to meet its obligations under the Notes

The Issuer will not as of the Issue Date have any significant assets other than the Portfolios and the other Issuer's Rights. The ability of the Issuer to meet its obligations in respect of the Notes will be dependent on the extent of collections and recoveries from the Portfolios and any other amounts payable to the Issuer pursuant to the terms of the Transaction Documents to which it is a party.

There is no assurance that, over the life of the Notes or at the redemption date of the Notes (whether on the Final Maturity Date, upon redemption by acceleration of maturity following the delivery of a Trigger Notice, or otherwise), there will be sufficient funds to enable the Issuer to pay interest on the Notes, or to repay the Notes in full.

If there are not sufficient funds available to the Issuer to pay in full all principal and interest and any other amounts due in respect of the Notes, then the Noteholders will have no further claims against the Issuer in respect of any such unpaid amounts. After the Notes have become due and payable following the delivery of a Trigger Notice, the only remedy available to the Noteholders and the Other Issuer Creditors is the exercise by the Representative of Noteholders of the Issuer's Rights under the Transaction Documents.

#### 1.3 No independent investigation in relation to the Portfolios

None of the Issuer, the Arrangers nor any other party to the Transaction Documents (other than the Originators) has undertaken or will undertake any investigation, searches or other actions to verify the details of the Portfolios sold by the Originators to the Issuer, nor has any such party undertaken, nor will any of them undertake, any investigations, searches or other actions to establish the creditworthiness of any Borrower.

None of the Issuer, the Arrangers nor any other party to the Transaction Documents (other than the Originators) has carried out any analysis in respect of the Loan Agreements in order to, without limitation, ascertain whether or not the Loan Agreements contain provisions limiting the transferability of the Claims.

The Issuer will rely instead on the representations and warranties given by the Originators in the Warranty and Indemnity Agreement and in the Transfer Agreements. The only remedies of the Issuer in respect of the occurrence of a breach of a representation and warranty which materially and adversely affects the value of a Claim will be the requirement that the Originators indemnify the Issuer for the damage deriving therefrom or repurchase the relevant Claim. See "The Warranty and Indemnity Agreement", below. There can be no assurance that the Originators will have the financial resources to honour such obligations.

#### 1.4 Claims of unsecured creditors of the Issuer

By operation of Law 130, the right, title and interest of the Issuer in and to the Portfolios will be segregated from all other assets of the Issuer (including, for the avoidance of doubt, any other portfolio purchased by the Issuer pursuant to the Law 130) and amounts deriving therefrom (for so long as such amounts are credited to one of the Issuer's accounts under this Transaction and not commingled with other sums) will be available on a winding up of the Issuer only to satisfy the obligations of the Issuer to the Noteholders and to pay other costs of

the Transaction. Amounts derived from the Portfolios (for so long as such amounts are credited to one of the Issuer's accounts under this Transaction and not commingled with other sums) will not be available to any other creditors of the Issuer.

In order to ensure such segregation: (i) the Issuer has undertaken (and is obligated pursuant to the Bank of Italy regulations) to open and to keep separate accounts in relation to each securitisation transaction; (ii) the servicers shall be able to individuate at any time, pursuant to the Bank of Italy regulations, specific funds and transactions relating to each securitisation and shall keep appropriate information and accounting systems to this purpose; and (iii) the parties to the Transaction have undertaken not to credit to the Accounts amounts other than those set out in Cash Administration and Agency Agreement.

Moreover, the provisions of article 3 of the Securitisation Law concerning the *patrimonio separato* are not likely to apply in circumstances where the cash-flow referred to above is commingled with the assets of a party other than the Issuer (such as, for example, the Servicers). Thus, if any such party becomes insolvent, any such cash-flow held by it could not be included in the *patrimonio separato*.

However, no guarantee can be given on the fact that the parties to the Transaction will comply with the law provisions and contractual provisions which have been inserted in the relevant Transaction Documents in order to ensure the segregation of assets. Furthermore, under Italian law, any other creditor of the Issuer would be able to commence insolvency or winding up proceedings against the Issuer in respect of any unpaid debt. Notwithstanding the foregoing, the corporate object of the Issuer as contained in its by-laws is limited and the Issuer has also agreed to certain covenants in the Intercreditor Agreement and the Conditions restricting the activities that may be carried out by the Issuer and has furthermore covenanted not to enter into any transactions that are not contemplated in the Transaction Documents. To the extent that the Issuer has other creditors, the Issuer has established the Expenses Account and the funds therein may be used for the purposes of paying the ongoing fees, costs, expenses and taxes of the Issuer to third parties, excluding the Other Issuer Creditors, in respect of the Transaction.

#### 1.5 Limited enforcement rights

The protection and exercise of the Noteholders' rights against the Issuer and the security under the Notes is one of the duties of the Representative of the Noteholders. The Rules of the Organisation of the Noteholders limit the ability of individual Noteholders to commence proceedings against the Issuer by conferring on the Meeting of the Noteholders the power to resolve on the ability of any Noteholder to commence any such individual actions.

## 1.6 Rights of set-off of borrowers

Under general principles of Italian law, the Borrowers would be entitled to exercise rights of set-off in respect of amounts due under any Claim against any amounts payable by each of the Originators to the relevant assigned Borrower. After publication in the Official Gazette of the notice of transfer of the Portfolios to the Issuer pursuant to the Transfer Agreements and registration of the assignment in the register of companies where the Issuer is enrolled (and provided that the relevant Borrower has not accepted the assignment of its debt with an express qualification to maintain a right to set-off, as indicated in certain law cases by the Supreme Court (*Corte di Cassazione*): judgement 5 March 1980, No. 1484 and 16 January 1979, No. 310), the Borrowers shall not be entitled to exercise any set-off right against their claims *vis-a-vis* each of the Originators which arises after the date of such publication and registration. Under the terms of the Warranty and Indemnity Agreement, each of the Originators has undertaken to indemnify the Issuer against any right of set-off which the Borrowers may exercise vis-à-vis the Issuer with respect to the Claims.

The Italian consumer legislation set forth in the Consolidated Banking Act (i) provides for a more borrower friendly set-off ruling and (ii) attributes to the borrower the right to terminate the loan and receive back any amount paid to the lender (and to any assignee) in case of breach by the supplier of the goods purchased by the borrower out of the loan. In any case, the Originators have represented under the Warranty and Indemnity Agreement there are not any Loan subject to the Italian consumer legislation.

## 1.7 Servicing of the Portfolios and potential conflicts of interest

Pursuant to the Servicing Agreement and as of its date of execution, each of the 22 Portfolios will be serviced by each of the relevant Originators. The net cash flows from the Portfolios may be affected by decisions made, actions taken and the collection procedures adopted pursuant to the provisions of the Servicing Agreement by the Servicers (or any permitted successors or assignees appointed under the Servicing Agreement). The Servicing Agreement prevents the Servicer from renegotiating, in the name and behalf of the Issuer, the Claims with the relevant Debtors, other than when certain conditions specified in the Servicing Agreement are met.

The parties to the Transaction Documents perform multiple roles within the Transaction, including (i) the Originators which are also Servicers, Limited Recourse Loan Providers and (ii) ICCREA Banca which is also Back-up Servicer and Operating Bank. Accordingly, conflicts of interest may exist or may arise as a result of the parties to this Transaction: (a) having engaged or engaging in the future in transactions with other parties of the Transaction; (b) having multiple roles in this Transaction and/or (c) executing other transactions for third parties. In any case, this risk factor is mitigated by the provisions indicated in the risk factor illustrated in the following paragraph 2.8.

#### 1.8 Further securitisations

The Issuer may purchase and securitise further portfolios of monetary claims in addition to the Portfolios. Pursuant to Article 3 of the Securitisation Law, the assets relating to each individual securitisation transaction will, by operation of law, be segregated from all other assets of the company that purchases the receivables. On a winding up of such company, such assets will only be available to holders of notes issued to finance the acquisition of the relevant receivables and to certain creditors claiming payment of debts incurred by such company in connection with the securitisation of the relevant assets.

The implementation by the Issuer of any such further securitisation is subject to the conditions specified under Condition 3.10 (*Covenants - Further Securitisations*). According to such condition, it is a condition precedent, *inter alia*, to any such securitisation that the Rating Agencies have been notified in writing of the Issuer's intention to carry out a Further Securitisation and the Rating Agencies have confirmed that any such Further Securitisation would not adversely affect the then current rating of any of the Class A Notes. See Condition 3 (*Covenants*).

#### 1.9 Tax treatment of the Issuer

Taxable income of the Issuer is determined in accordance with Italian Presidential Decree No. 917 of 22 December 1986. Pursuant to the regulations issued by the Bank of Italy on 14 February 2006 (Istruzioni per la Redazione dei Bilanci degli Intermediari Finanziari Iscritti nell'"Elenco Speciale", degli Imel, delle SGR e delle SIM), the assets, liabilities, costs and revenues of the Issuer in relation to the securitisation of the Portfolios will be treated as off-balance sheet assets, liabilities, costs and revenues, to be reported in the notes to the financial statements. Based on the general rules applicable to the calculation of the net taxable income of a company, such taxable income should be calculated on the basis of accounting, i.e. on-

balance sheet, earnings, subject to such adjustments as are specifically provided for by applicable income tax rules and regulations. On this basis, no taxable income should accrue to the Issuer in the context of the transfer to the Issuer of the Portfolios. This opinion has been expressed by scholars and tax specialists and has been confirmed by the tax authority (Circular No. 8/E issued by *Agenzia delle Entrate* on 6 February 2003) on the grounds that the net proceeds generated by the securitised assets may not be considered as legally available to an issuer insofar as any and all amounts deriving from the underlying assets are specifically destined to satisfy the obligations of such issuer to the noteholders, the originator and any other creditors of the issuer in respect of the securitisation of the underlying assets in compliance with applicable laws.

It is, however, possible that the Ministry of Economy and Finance or another competent authority may issue further regulations, letters or rulings relating to Law 130 which might alter or affect the tax position of the Issuer as described above in respect of all or certain of its revenues and/or items of income also through the non-deduction of costs and expenses.

As confirmed by the Italian Tax Authority (Agenzia delle Entrate) Resolution No. 139/E of 17 November 2004, issued in relation to the EU Court of Justice sentence of June 26, 2003 on case C-305/01, the transfer of the Portfolios to the Issuer qualifies as a financial service rendered by the Issuer to the Originators, to be subject to VAT at the zero per cent. rate (operazione esente IVA) because it does not represent a mere credit recovery activity which would be subject to VAT at a 21 percent rate. The characterisation of the transfer of Portfolios as a financial service is supported by the evidence that the transfer takes place in the context of a financial transaction where (a) the Originators transfer the Portfolios to the Issuer in order to enable the latter to raise funds (through the issuance of Notes collateralised by the Portfolios) to be advanced to the Originators as transfer price of the Portfolios; (b) the Issuer will effectively be entitled to retain for itself all collection and recoveries proceeds of the Portfolios to the extent necessary to repay the principal amount of the Notes and to pay interest thereon and all costs borne by the Issuer in the context of the Transaction. It is however possible that future rulings, guidelines, regulations or letters of the Italian Tax Authority (Agenzia delle Entrate) or other competent authorities might propose a different interpretation. The Portfolio is not transferred for a consideration due by the Originators to the Issuer, nor at a discount below the face value of the receivables. As a consequence of this and according to Circular No. 32/E of 11 March 2011, the Italian Tax Authority (Agenzia delle Entrate) would argue that the transaction does not qualify for VAT purposes as operazione esente (VAT exempt) and qualify instead as operazione fuori campo (out of the scope of VAT). Should for any reason the Transfer Agreements be subject, either voluntarily or in case of use or enunciation, to registration, 0.5% registration tax will be payable by the relevant parties thereto on the nominal value of the transferred receivables.

Pursuant to Legislative Decree No. 141/2010 which modified article 3, paragraph 3, of Law 130, the Issuer is not any longer requested to be registered as financial intermediary under article 106 of the Banking Act while it is enrolled in the register for securitization vehicles held by the Bank of Italy pursuant to the Bank of Italy's regulation dated 29 April 2011. Agenzia delle Entrate has not changed its tax guidelines and we the Issuer has been advised that the current tax regime has not been modified by the new regulations of Bank of Italy.

## 2. THE NOTES

#### 2.1 Liability under the Notes

The Notes will be obligations solely of the Issuer. In particular, the Notes will not be obligations or responsibilities of, or be guaranteed by each of the Originators (in any capacity), the Agent Bank, the Cash Manager, the Representative of the Noteholders, the Transaction Bank, the English Transaction Bank, the Operating Bank, the Servicers, the

Limited Recourse Loan Providers, the Corporate Services Provider, the Stichting Corporate Services Provider, the Computation Agent, the Paying Agents and the Arrangers. No such person accepts any liability whatsoever in respect of any failure by the Issuer to make any payment of any amount due on the Notes.

The Notes are limited recourse obligations of the Issuer and amounts payable thereunder are payable solely from amounts received by the Issuer from or in respect of the Portfolios and the other Issuer's Rights and receipts under the Transaction Documents to which it is or will be a party. On the Issue Date, the Issuer will have no significant assets other than the Portfolios and the other Issuer's Rights. Although the Issuer may issue further notes subject to the terms of the Conditions and to the Quotaholder's Agreement, the Noteholders will not have any recourse to the assets securing such notes.

#### 2.2 Subordination

Before the delivery of Trigger Notice (as defined below), with respect to the obligation of the Issuer to pay interest and repay principal on the Notes, the Conditions provide that the Class A Notes will rank *pari passu* and without any preference or priority among themselves; the Class B Notes of each Series will rank *pari passu* and without any preference or priority among themselves but will be subordinated to the Class A Notes.

Following the delivery of a Trigger Notice, with respect to the obligation of the Issuer to repay principal on the Notes, the Conditions provide that the Class A Notes will rank *pari passu* and without any preference or priority among themselves; the Class B Notes of each Series will rank *pari passu* and without any preference or priority among themselves but will be subordinated to the Class A Notes.

Principal on each Series of Class B Notes will be reimbursed and interest accrued thereon will be paid out of available funds deriving from collections and recoveries from the Relevant Portfolio provided that, following occurrence of a Cross Collateral Event and in case of acceleration of the reimbursement of the Notes, principal on each Series of Class B Notes will be reimbursed and interest accrued thereon will be paid out of the aggregate available funds deriving from collections and recoveries of all the Portfolios, but in an amount which is a function of the performance of the relevant Portfolio.

No repayments of principal will be made on the Class B Notes until all principal due on the Class A Notes has been paid or is paid concurrently with such repayment as set forth in the Conditions.

If a Trigger Notice is served, as long as any Class A Notes are outstanding, unless notice has been given to the Issuer declaring the Class A Notes due and payable, the Class B Notes shall not be capable of being declared due and payable and the Class A Noteholders will be entitled to determine the remedies to be exercised. Remedies pursued by the Class A Noteholders could be adverse to the interests of the Class B Noteholders. No repayment of principal will be made on any Class of Notes until all principal due on each Class of Notes ranking in priority thereto has been repaid.

## 2.3 The "Anti-Deprivation" principle

The validity of contractual priorities of payments such as those contemplated in this transaction (the Orders of Priority) has been challenged recently in the English and U.S. courts. The hearings have arisen due to the insolvency of a secured creditor (in that case a swap counterparty) and have considered whether such payment priorities breach the "anti-deprivation" principle under English and U.S insolvency law. This principle prevents a party from agreeing to a provision that deprives its creditors of an asset upon its insolvency. It was

argued that where a secured creditor subordinates itself to noteholders in the event of its insolvency, that secured creditor effectively deprives its own creditors. The Court of Appeal in Perpetual Trustee Co Ltd v BNY Corporate Trustee Services Ltd 2009 EWCA Civ 1160, dismissed this argument and upheld the validity of similar priorities of payment, stating that the anti-deprivation principle was not breached by such provisions. This was further supported in *Belmont Park Investments PTY Limited v BNY Corporate Trustee Services Ltd and Lehman Brothers Special Financing Inc 2011 UKSC 38*, in which the Supreme Court upheld the priority provisions at issue in determining that such priority provisions were part of a complex commercial transaction entered into in good faith without any intention to evade insolvency law in which the changing priority of payments were an essential part of the transaction understood by the parties and did not contravene the anti-deprivation principle.

The U.S. Bankruptcy Court for the Southern District of New York has granted Lehman Brothers Special Finance Inc.'s motion for summary judgement to the effect that the provisions do infringe the anti-deprivation principle in a U.S. insolvency. The Court acknowledged that this has resulted in the U.S. courts coming to a decision "directly at odds with the judgement of the English Courts". BNY Corporate Trustee Services Ltd was granted leave to appeal but the case subsequently settled out of court. Notwithstanding the New York settlement, the decision of the US Bankruptcy Court remains inconsistent with the decision reached by the Supreme Court of England and Wales in the Belmont case as referred to above and therefore uncertainty remains as to how a conflict of the type referred to above would be resolved by the courts. Given the current state of U.S. and English law, this is likely to be an area of continued judicial focus particularly in respect of multi-jurisdictional insolvencies.

Additionally, there can be no assurance as to how such subordination provisions would be viewed in other jurisdictions such as Italy or whether they would be upheld under the insolvency laws of any such relevant jurisdiction. If a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction and any relevant foreign judgement or order was recognised by the Italian courts, there can be no assurance that these actions would not adversely affect the rights of the Noteholders, the ratings of the Class A Notes, the market value of the Class A Notes and/or the ability of the Issuer to satisfy all or any of its obligations under the Class A Notes.

#### 2.4 Yield and payment considerations

The yield to maturity of the Notes will depend on, *inter alia*, the amount and timing of repayment of principal under the Claims (including prepayments).

The yield to maturity of the Notes may be affected by a higher than anticipated prepayment rate under the Claims. Such rate cannot be predicted and is influenced by a wide variety of economic, social and other factors, including prevailing market interest rates and margin offered by the banking system, the availability of alternative financing and local and regional economic conditions and recently enacted legislation which simplifies the refinancing of loans and possible future legislations enacted to the same purpose. Therefore, no assurance can be given as to the level of prepayments that will occur under the Portfolios.

## 2.5 Projections, forecasts and estimates

Estimates of the weighted average life of the Class A Notes included herein, together with any other projections, forecasts and estimates in this Prospectus, are forward-looking statements. Projections are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the projections will not materialise or will vary significantly from actual results. Accordingly, actual results may vary from the projections, and the variations may be material. The potential noteholders are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this Offering Circular and are

based on assumptions that may prove to be inaccurate. No-one undertakes any obligation to update or revise any forward-looking statements contained herein to reflect events or circumstances occurring after the date of this Offering Circular.

#### 2.6 Interest rate risk

The Claims have or may have interest payments calculated on a fixed rate basis or a floating rate basis (which may be different from the EURIBOR applicable under the Class A Notes and may have different fixing mechanism), whilst the Class A Notes will bear interest at a rate based on Three Month EURIBOR determined on each Interest Determination Date, subject to and in accordance with the Conditions. As a result, there could be a rate mismatch between interest accruing on the Class A Notes and on the Portfolios. As a result of such mismatch, an increase in the level of Three Month EURIBOR could adversely impact the ability of the Issuer to make payments on the Class A Notes.

#### 2.7 Limited nature of credit ratings assigned to the Class A Notes

The credit ratings assigned to the Class A Notes reflects the Rating Agencies' assessment only in relation to a likelihood of timely payment of interest and the ultimate repayment of principal on or before the Final Maturity Date, not that such payments will be paid when expected or scheduled. These ratings are based, among other things, on the Rating Agencies' determination of the value of the Portfolios, the reliability of the payments on the Portfolios and the availability of credit enhancement.

The ratings do not address, *inter alia*, the following:

- the possibility of the imposition of Italian or European withholding tax; or
- the marketability of the Class A Notes, or any market price for the Class A Notes; or
- whether an investment in the Class A Notes is a suitable investment for the Noteholder.

A rating is not a recommendation to purchase, hold or sell the Class A Notes.

The Rating Agencies may lower their ratings or withdraw their ratings if, in the sole judgment of the Rating Agencies, the credit quality of the Class A Notes has declined or is in question. If any rating assigned to the Class A Notes is lowered or withdrawn, the market value of the Class A Notes may be affected.

## 2.8 Suitability

Prospective investors should determine whether an investment in the Class A Notes is appropriate in their particular circumstances and should consult with their legal, business and tax advisers to determine the consequences of an investment in the Class A Notes and to arrive at their own evaluation of the investment.

Investment in the Class A Notes is only suitable for investors who:

- (i) have the requisite knowledge and experience in financial and business matters to evaluate such merits and risks of an investment in the Class A Notes:
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their financial situation;
- (iii) are capable of bearing the economical risk of an investment in the Class A Notes; and

(iv) recognise that it may not be possible to dispose of the Class A Notes for a substantial period of time, if at all.

Prospective investors in the Class A Notes should make their own independent decision whether to invest in the Class A Notes and whether an investment in the Class A Notes is appropriate or proper for them, based upon their own judgement and upon advice from such advisers as they may deem necessary.

Prospective investors in the Class A Notes should not rely on or construe any communication (written or oral) of the Issuer, the Originators or the Arrangers as investment advice or as a recommendation to invest in the Class A Notes, it being understood that information and explanations related to the Conditions shall not be considered to be investment advice or a recommendation to invest in the Class A Notes.

No communication (written or oral) received from the Issuer, the Servicers or the Originators or from any other person shall be deemed to be an assurance or guarantee as to the expected results of an investment in the Class A Notes.

It is the intention of the Originators to initially use the Class A Notes as collateral in repurchase transactions and/or as collateral in connection with liquidity and/or open market operations with the European Central Bank or other qualified investors.

#### 2.9 Absence of secondary market

There is not at present an active and liquid secondary market for the Class A Notes. The Class A Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States, or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Although the application has been made to the Irish Stock Exchange for the Class A Notes to be admitted to the official listing and trading on its regulated market, there can be no assurance that a secondary market for the Class A Notes will develop, or, if a secondary market does develop in respect of any of the Class A Notes, that it will provide the holders of such Class A Notes with the liquidity of investments or that it will continue until the final redemption or cancellation of such Class A Notes. Consequently, any purchaser of Class A Notes must be prepared to hold such Class A Notes until the final redemption or cancellation.

## 2.10 The Representative of the Noteholders

The Conditions and the Intercreditor Agreement contain provisions regarding the fact that the Representative of the Noteholders shall have regard to the interests of the Noteholders and the Other Issuer Creditors in the exercise and performance of all powers, authorities, duties and discretions of the Representative of the Noteholders under the Conditions and the Intercreditor Agreement, but, notwithstanding the foregoing, the Representative of the Noteholders shall have regard to the interests only of whichever Noteholder ranks higher in the applicable Order of Priority and, following the full redemption and cancellation of the Notes, of the Other Issuer Creditor that ranks higher in the applicable Order of Priority for the payment of any amount or in the exercise and performance of all its powers, authorities, duties and discretions, if, in its good faith opinion, there is or may be a conflict between all or any of the interests of the Noteholders and the Other Issuer Creditors.

#### 2.11 Class A Notes as Eligible Collateral for ECB liquidity and/or open market transaction

After the Issue Date an application may be made to a central bank in the Eurozone to record

the Class A Notes as eligible collateral, within the meaning of the guidelines issued by the European Central Bank (ECB) on September 2011 (*The implementation of monetary policy in the Euro area*), as subsequently amended and supplemented, for liquidity and/or open market transactions carried out with such central bank. In this respect, it should be noted that in accordance with their policies, neither the ECB nor the central banks of the Eurozone will confirm the eligibility of the Class A Notes for the above purpose prior to their issuance and if the Class A Notes are accepted for such purpose, the relevant central bank may amend or withdraw any such approval in relation to the Class A Notes at any time. The assessment and/or decision as to whether the Class A Notes qualify as eligible collateral for liquidity and/or open market transactions rests with the relevant central bank.

None of the Issuer, the Originators, the Arrangers or any other party to the Transaction Documents gives any representation or warranty as to the eligibility of the Class A Notes for such purpose, nor do they accept any obligation or liability in relation to such eligibility or lack of it of the Class A Notes at any time.

#### 2.12 Substitute tax under the Notes

Payments under the Notes may in certain circumstances, described in the section headed "*Taxation*" of this Prospectus, be subject to a Law 239 Deduction. In such circumstance, any beneficial owner of an interest payment relating to the Notes of any Class will receive amounts of interest payable on the Notes net of a Law 239 Deduction. At the date of such Prospectus, such Law 239 Deduction, if applicable, is levied at the rate of 20%, or such lower rate as may be applicable under the relevant double taxation treaty.

In the event that any Law 239 Deduction or any other deduction or withholding for or on account of tax is imposed in respect of payments to Noteholders of amounts due pursuant to the Notes, the Issuer will not be obliged to gross-up or otherwise compensate Noteholders for the lesser amounts the Noteholders will receive as a result of the imposition of any such deduction or withholding, or otherwise to pay any additional amounts to any of the Noteholders.

#### 2.13 EU Directive on the taxation of savings income

On June 3, 2003, the European Council of Economics and Finance Ministers adopted a Directive on the taxation of savings income under which Member States are required starting from July 1, 2005, to provide to the tax authorities of another Member State the details of payments of interest (or similar income) paid by a person within its jurisdiction, qualifying as paying agent under the Directive, to an individual resident in that other Member State, except that, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain Third Countries). A number of non-EU countries and territories, including Switzerland, have agreed to adopt similar measures.

Luxembourg and Austria may however elect to introduce automatic exchange of information during the transitional period, in which case they will no longer apply the withholding tax.

The Council Directive was implemented in Italy by Legislative Decree No. 84 of 18 April 2005. Pursuant to said decree, subject to a number of important conditions being met, with respect to interest paid to individuals who qualify as beneficial owners of the interest payment and are resident for tax purposes in another EU Member State or in a dependent or associated territory under the relevant international agreement, Italian paying agents (e.g., banks, SIMs, SGRs., financial companies and fiduciary companies resident in Italy for tax purposes, permanent establishments in Italy of non-resident persons as well as any other person resident

in Italy for tax purposes paying interest for professional or commercial reasons) shall report to the Italian tax authorities details of the relevant payments and personal information of the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

The same details of payments of interest (or similar income) shall be provided to the tax authorities of a number of non-EU countries and territories, which have agreed to adopt similar measures with effect from the same date.

## 2.14 Change of law

The structure of the transaction and, *inter alia*, the issue of the Notes and the rating assigned to the Class A Notes are based on Italian law, tax and administrative practice in effect at the date hereof, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given that Italian law, tax or administrative practice will not change after the Issue Date or that any such change will not adversely impact the structure of the transaction and the treatment of the Notes.

#### 3. GENERAL RISKS

#### 3.1 Loans' performance

Each Portfolio is comprised of performing mortgage and unsecured loans governed by Italian law. The Portfolios have characteristics that show the capacity to produce funds to service payments due on the Notes. However, there can be no guarantee that the Borrowers will not default under such Loans and that they will continue to perform their relevant payment obligations. The recovery of amounts due in relation to any defaulted claims will be subject to effectiveness of enforcement proceedings in respect of the Portfolios which, in the Republic of Italy, can take a considerable time depending on the type of action required and where such action is taken as well as depend on several other factors.

These factors include the following: proceedings in certain courts involved in the enforcement of mortgage loans and mortgages may take longer than the national average; obtaining title deeds from land registries which are in the process of computerising their records can take up to two (2) or three (3) years. For the Republic of Italy as a whole, it takes an average of six (6) to seven (7) years from the time lawyers commence enforcement proceedings until the time an auction date is set for the forced sale of any assets. In this respect, it is to be taken into account that Italian Law No. 302 of 3 August 1998 ("Norme in tema di espropriazione forzata e di atti affidabili ai notai") (the "Law No. 302") has allowed notaries to conduct certain stages of the foreclosure procedures in place of the courts and that by means of Law No. 80 of 14 May 2005 ("Conversione in legge, con modificazioni, del decreto-legge 14 marzo 2005, n. 35, recante disposizioni urgenti nell'ambito del Piano di azione per lo sviluppo economico, sociale e territoriale. Deleghe al Governo per la modifica del codice di procedura civile in materia di processo di cassazione e di arbitrato nonché per la riforma organica della disciplina delle procedure concorsuali") extends such activity to lawyers, certified accountants and fiscal experts enrolled in a special register. The reforms are expected to reduce the length of foreclosure proceedings by between two (2) and three (3) years, although at the date of this Prospectus, the impact which the mentioned laws will have on the Loans comprised in the Portfolios cannot be fully assessed. See "Selected Aspects of Italian Law".

#### 3.2 Risk of losses associated with Borrowers

General economic conditions and other factors have an impact on the ability of Borrowers to repay Loans. Loss of earnings, illness, divorce, decrease in turnover, increase in operating or in financial costs and other similar factors may lead to an increase in delinquencies and

bankruptcy filings by Borrowers, which may lead to a reduction in Loans payments by such Borrowers and could reduce the Issuer's ability to service payments on the Notes.

The Loans have been entered into, *inter alios*, with Borrowers which are individuals or commercial entrepreneur (*imprenditore che esercita un'attività commerciale*). In any case, some of the Borrowers may fall within the scope of application of the Royal Decree No. 267 of 16 March 1942, as subsequently amended and supplemented (the "**Bankruptcy Law**") and as such may be subject to insolvency proceedings (*procedure concorsuali*) under the Bankruptcy Law.

In the event of insolvency, prepayments made by a Borrower (to the extent the same is subject to the Bankruptcy Law) under the relevant Loan Agreement may be declared ineffective pursuant to article 65 of the Bankruptcy Law ("Article 65") which provides that a payment of a debt not yet due and payable, which falls due and payable on or after the date of declaration of bankruptcy of a debtor is ineffective towards the creditors of the bankruptcy estate if such payment is made by the debtor in the two -years preceding the declaration of bankruptcy (including, accordingly, any prepayments made under a loan agreement).

While the Securitisation Law provides that claw-back provisions set forth in article 67 of the Bankruptcy Law do not apply to payments made by the Borrowers to the Issuer in respect of the securitised Claims, it does not contain any exemption provisions in respect of Article 65. However according to the judgment by the Court of Verbania dated 13 August 1999 (published in "Il Fallimento", 2000, II, pages 1047 et seq.), the approach of the Italian Supreme Court is that claw back actions under the Bankruptcy Law should not be prejudicial to the rights of secured creditors. Therefore, the payments made further to an obligation not vet due, arising out from mortgage loans made by the debtor declared bankrupt in the two years prior to the date of the bankruptcy declaration are not subject to the claw back action provided for by article 65 of the Bankruptcy Law, because the ultimate consequence of the declaration of ineffectiveness of payments under article 65 of the Bankruptcy Law is that the secured creditor could not be admitted to the bankruptcy estate as a secured creditor given that the mortgage would have been cancelled by effect of the pre-payment and according to Italian law it could not be reinstated vis-à-vis the receiver. The mentioned judgment by the Court of Verbania is not an isolated judgment, rather refers to previous Italian Supreme Court case law whose subject matter was, as the Italian Supreme Court itself puts it in its judgement No. 20005/2005, the "injustice of turning a secured claim into a non-secured claim".

In this regard, it has to be noted that a recent case from the Italian Supreme Court (judgment no. 19978 of July 18th 2008) has stated that article 65 of the Bankruptcy Law does not apply in case the right of prepayment and the related right to obtain the cancellation of the mortgage securing the prepaid loan are directly and imperatively attributed to the borrower by specific provisions of law.

More in general, with respect to the insolvency proceedings, due to the complexity of these procedures the time involved and the possibility for challenges and appeals by the debtor and the other parties involved, there can be no assurance that any such insolvency proceeding would result in the payment in full of outstanding amounts under the Loans or that such proceedings would be concluded before the stated maturity of the Notes. For further details see section headed "Selected Aspects of Italian Law".

#### 3.3 Real estate investments

A portion of the Loans are secured by real estate assets and subject to the risks inherent in investments in or secured by real property. Such risks include adverse changes in national, regional or local economic and demographic conditions in Italy and in real estate values generally as well as in interest rates, real estate tax rates, other operating expenses, inflation

and the strength or weakness of Italian national, regional and local economies, the supply of and demand for properties of the type involved, zoning laws or other governmental rules and policies (including environmental restrictions and changes in land use) and competitive conditions (including construction of new competing properties) all of which may affect the value of the real estate assets and the collections and recoveries generated by them.

The performance of investments in real estate has historically been cyclical. There is a possibility of losses with respect to the real estate assets for which insurance proceeds may not be adequate or which may result from risks that are not covered by insurance. As with all properties, if reconstruction (for example, following destruction or damage by fire or flooding) or any major repair or improvement is required to be made to a real estate asset, changes in laws and governmental regulations may be applicable and may materially affect the cost to, or ability of, the owner to effect such reconstruction, major repair or improvement. Any of these events would affect the amount realised with respect to the relevant portion of the Loans, and consequently, the amount available to make payments on the Notes.

## 3.4 Italian Usury Law

Italian Law No. 108 of 7 March 1996 ("*Disposizioni in materia di usura*") (the "**Usury Law**") introduced legislation preventing lenders from applying interest rates equal to or higher than the thresholds set on a quarterly basis by a decree issued by the Italian Treasury (the "**Usury Thresholds**") (the latest of such decrees having been issued on 26 June 2012).

In addition, even though the applicable Usury Thresholds are not exceeded, interests and other advantages and/or remunerations might be held usurious if: (i) they are disproportionate to the sum lent (taking into account, in evaluating such condition, the specific terms and conditions of the transaction and the average rate usually applied to similar transactions); and (ii) the person who paid or accepted to pay the relevant amounts was, at the time it made such payment or undertook the obligation, in financial and economic difficulties.

On 29 December 2000, the Italian Government issued law decree No. 394 ("Interpretazione autentica della legge 7 marzo 1996, n. 108") (the "Decree 394/2000"), turned into Law No. 24 of 28 February 2001 ("Conversione in legge, con modificazioni, del decreto-legge 29 dicembre 2000, n. 394, concernente interpretazione autentica della legge 7 marzo 1996, n. 108, recante disposizioni in materia di usura"), which clarified the uncertainty over the interpretation of the Usury Law and provided, inter alia, that interest will be deemed to be usurious only if the interest rate agreed by the parties exceeded the Usury Thresholds at the time when the loan agreement or any other credit facility was entered into or the interest rate was agreed. Decree 394/2000 also provided that as an extraordinary measure due to the exceptional fall in interest rates in 1998 and 1999, interest rates due on instalments payable after 2 January 2001 on fixed rate loans (other than subsidised loans) already entered into on the date such decree came into force (such date being 31 December 2000) are to be substituted, except where the parties have agreed to more favourable terms, with a lower interest rate set in accordance with parameters fixed by such decree by reference to the average gross yield of multiannual treasury bonds (Buoni Tesoro Poliennali) in the period from January 1986 to October 2000.

The Italian Constitutional Court (*Corte Costituzionale*) has rejected, with decision no. 29/2002 (deposited on 25th February 2002), a constitutional exception raised by the Court of Benevento concerning article 1, paragraph 1, of the Usury Law. In so doing, the Constitutional Court has confirmed the constitutional validity of the provisions of the Usury Law which holds that the interest rates may be deemed to be void due to usury only if they infringe the Usury Law at the time they are agreed as between the borrower and the lender and not as at the time such rates are actually paid by the borrower.

Prospective Noteholders should note that under the terms of the Warranty and Indemnity Agreement, each Originator has represented and warranted to the Issuer, *inter alia*, that the terms and conditions of each Loan are, and the exercise by the each of the Originators of its rights thereunder is, in each case, in compliance with all applicable laws and regulations including, without limitation, all laws and regulations relating to banking activity, *credito fondiario*, usury and personal data protection provisions in force at the time, as well as in compliance with the internal procedures from time to time adopted by each of the Originators. See "Description of the Warranty and Indemnity Agreement".

## 3.5 Compounding of interest (*Anatocismo*)

According to article 1283 of the Italian Civil Code, in respect of a monetary claim, interests accrued for at least six months can be capitalised and provided that the capitalisation has been agreed after the date when they have become due or from the date when the relevant legal proceedings are commenced in respect of that monetary claim, save there are no contrary recognised customary practices (usi normativi). Banks in Italy have traditionally capitalised accrued interests on a quarterly basis on the grounds that such practice could be characterized as a customary practices. Certain recent judgments from Italian Courts (including Judgments No. 2374/99 and No. 2593/03 of the Italian Supreme Court) have held that such practice do not meet the legal definition of customary practices. In this respect, it should be noted that article 25, paragraph 2, of the Decree No. 342 (the "Decree") has delegated to the Interministerial Committee of Credit and Saving (the "CICR") powers to fix the conditions for the capitalization of accrued interests. As a matter of fact, the CICR, pursuant to article 3 of a Resolution dated 9 February 2000 (the "Resolution"), has provided, in relation to loans involving a deferred repayment that, in case of breach by the debtor, the amount due on the maturity of each instalment, shall produce interests from such date up to the date of the actual payment, if so provided by the relevant contract. Moreover, article 25, paragraph 3, of the Decree provides that the provisions relating to the capitalization of accrued interest set forth in contracts entered into before the date of the Resolution are valid and effective up to the date thereof and after such date shall be consistent to the provisions of the Resolution. Such Decree has been challenged, however, before the Italian Constitutional Court on the grounds that it falls outside the scope of the powers delegated under the Legge Delega, and article 25 paragraph 3 of the Decree has been declared unconstitutional by decision No. 425 of 9/17 October 2000 issued by the Italian Constitutional Court.

On the basis of the foregoing, it cannot be excluded that borrowers may, where appropriate, challenge the practice of capitalising interest by banks on the grounds set forth by the Italian Supreme Court in the above mentioned decision and, therefore, that a negative effect on the returns generated from the residential and commercial mortgage loan could derive.

With respect to this matter, a recent ruling, issued on 29 October 2008 by the Court of Bari (honorary judge of the detached office of Rutigliano) declared some mortgage loan agreements (executed in 1988 and 1989) that were based upon the amortisation method known as "French amortisation" (i.e. mortgage loans with fixed instalments, made up of an amount of principal (that progressively increases) and an amount of interest (that decreases as repayments are made) calculated with a compound interest formula as partially void.

In the case at hand, the technical consultancy requested by the judge showed that the instalments were calculated with a compound interest formula not expressly stated in the agreement, and that from the application of such formula the effective interest was higher than the nominal interest. The debtors were not able to realise, therefore, at the time of execution of the relevant mortgage loans, the effective high interest to be paid, as the nominal annual interest was that resulting from the agreement while the effective interest could only be inferred from time to time on the basis of the amortisation plan. Considering that the calculation of compound interest is permitted only within the limits of article 1283 of the

Italian Civil Code, as described above (i.e. the compounding has to follow the maturation of interest and never to precede it, as occurs in such French amortisation), the judge declared that the relevant mortgage loans were partially void and recalculated the amortisation plans with reference to the applicable legal rate, so determining an interest rate lower than to that paid by the debtors.

Under the terms of the Warranty and Indemnity Agreement, the Originators have undertaken to indemnify the Issuer in respect of any losses, costs and expenses that may be incurred by the Issuer in connection with any challenge in respect of the Claims. See "Description of the Warranty and Indemnity Agreement".

#### 3.6 Claw-back of the sale of the Portfolios

A transfer pursuant to the Securitisation Law may be subject to a claw-back action of such sale by a liquidator of the transferor: (i) if the sale is not undervalued, within three months following the transfer if: (a) the transferor was insolvent at the time of the transfer; and (b) the liquidator can prove that the transferee was, or ought to have been, aware of such insolvency; or (ii) if the sale is undervalued, within six months following the transfer if: (a) the transferor was insolvent at the time of the transfer; and (b) the transferee cannot prove that it was not, or ought not to have been, aware of such insolvency.

Accordingly, if the Originators were insolvent at the date of the execution of the relevant Trasfer Agreement and the Issuer was, or ought to have been, aware of such insolvency, the relevant transfer may, in certain circumstances, be subject to claw-back by a liquidator of the Originators. Under the Warranty and Indemnity Agreements, each of the Originators has represented that it was solvent as of the date of the transfer, and that such representations shall deemed to be repeated as of the Issue Date by the relevant Originator, and that all appropriate solvency certificates have been obtained as of the date of the transfer of the Portfolios.

#### 3.7 The Securitisation Law

As of the date of this Prospectus, only limited interpretation of the application of the Securitisation Law has been issued by Italian governmental or regulatory authorities; therefore, it is possible that further regulations, relating to the Securitisation Law or the interpretation thereof, are issued in the future, the impact of which cannot be predicted by the Issuer or any other party to the Transaction Documents, as of the date of this Prospectus.

## 3.8 Mutui Fondiari

The Mortgage Loans include, *inter alia*, mortgage loans qualifying as *mutui fondiari*. In addition to the general legislation commonly applicable to mortgage lending, *mutui fondiari* are regulated by specific legislation (*credito fondiario*), which grants certain rights to the borrower and the mortgage lender which are not provided for by the general legislation. For further details see section headed "*Selected aspects of Italian law - Mutui fondiari*".

#### 3.9 Article 120-ter of the Consolidated Banking Act

Article 120-ter of the Consolidated Banking Act provides that any provisions imposing a prepayments penalty in case of early redemption of mortgage loans is null and void with respect to loan agreements entered into, with an individual as borrower for the purpose of purchasing or restructuring real estate properties destined to residential purposes or to carry out the borrower's own professional or business activities. For a description of the main terms of the article 120-ter of the Consolidated Banking Act, see section headed "Selected aspects of Italian law –Article 120-ter of the Consolidated Banking Act".

The Italian banking association ("ABI") and the main national consumer associations have reached an agreement (the "Prepayment Penalty Agreement") regarding the equitable renegotiation of prepayment penalties with certain maximum limits calculated on the outstanding amount of the loans (the "Substitutive Prepayment Penalty") containing the following main provisions: (i) with respect to variable rate loan agreements, the Substitutive Prepayment Penalty should not exceed 0.50% and should be further reduced to (a) 0.20% in case of early redemption of the loan carried out within the third year from the final maturity date and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (ii) with respect to fixed rate loan agreements entered into before 1 January 2001, the Substitutive Prepayment Penalty should not exceed 0.50%, and should be further reduced to: (a) 0.20%, in case of early redemption of the loan carried out within the third year from the final maturity date; and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (iii) with respect to fixed rate loan agreements entered into after 31 December 2000, the Substitutive Prepayment Penalty should be equal to: (a) 1.90% if the relevant early redemption is carried out in the first half of loan's agreed duration; (b) 1.50% if the relevant early redemption is carried out following the first half of loan's agreed duration, provided however that the Substitutive Prepayment Penalty should be further reduced to: (x) 0.20%, in case of early redemption of the loan carried out within three years from the final maturity date; and (y) zero, in case of early redemption of the loan carried out within two years from the final maturity date.

The Prepayment Penalty Agreement introduces a further protection for borrowers under a "safeguard" equitable clause (the "*Clausola di Salvaguardia*") in relation to those loan agreements which already provide for a prepayment penalty in an amount which is compliant with the thresholds described above. In respect of such loans, the *Clausola di Salvaguardia* provides that: (1) if the relevant loan is either: (x) a variable rate loan agreement; or (y) a fixed rate loan agreement entered into before 1 January 2001; the amount of the relevant prepayment penalty shall be reduced by 0.20%; (2) if the relevant loan is a fixed rate loan agreement entered into after 31 December 2000, the amount of the relevant prepayment penalty shall be reduced by (x) 0.25% if the agreed amount of the prepayment penalty was equal or higher than 1.25%; or (y) 0.15%, if the agreed amount of the prepayment penalty was lower than 1.25%.

Finally the Prepayment Penalty Agreement sets out specific solutions with respect to hybrid rate loans which are meant to apply to the hybrid rates the provisions, as more appropriate, relating respectively to fixed rate and variable rate loans.

## 3.10 Article 120-quater of the Consolidated Banking Act

Article 120-quater of the Consolidated Banking Act provides that any borrower may at any time prepay the relevant loan funding such prepayment by a loan granted by another lender which will be subrogated pursuant to article 1202 of the Italian civil code (*surrogato per volontà del debitore*) in the rights of the former lender, including the mortgages (without any formalities for the annotation of the transfer with the land registry, which shall be requested by enclosing a certified copy of the deed of subrogation (*atto di surrogazione*) to be made in the form of a public deed (*atto pubblico*) or of a deed certified by a notary public with respect to the signature (*scrittura privata autenticata*) without prejudice to any benefits of a fiscal nature.

In the event that the subrogation is not completed within thirty days from the relevant request from the succeeding lender to the former lender to start the relevant cooperation procedures, the original lender shall pay to the borrower an amount equal to 1% of the amount of the loan for each month or part thereof of delay, provided that if the delay is due to the succeeding lender, the latter shall repay to the former lender the delay penalty paid by it to the borrower.

As a consequence of the above and, as a result of the subrogation, the rate of prepayment of the Loan Agreements might materially increase; such event might therefore have an impact on the yield to maturity of the Notes.

Prospective Noteholders' attention is drawn to the fact that, as a result of the entry into force of the Prepayment Penalty Agreement, the rate of prepayment in respect of Mortgage Loans can be higher than the one traditionally experienced by the Originators for mortgage loans and that the Issuer may not be able to recover the prepayment fees in the amount originally agreed with the Borrowers.

# 3.11 Convention between the Ministry of Economy and Finance, the Italian Banking Association and associations of the representative of the companies

On the 3rd of August 2009, the Ministry of Economy and Finance, the ABI (*Associazione Bancaria Italiana*) and the associations of the representative of the companies signed a convention about the temporary suspension of small and middle-sized companies debts to the banking system in order to help companies striked by the financial crisis (the "PMI Convention").

The Convention provides, *inter alia*, the possibility of a 12 (twelve) months suspension for the payment of the principal component of the loan's instalments (the "**Suspension**") and the postponement of the payment of such instalments at the end of the original amortization plan of the relevant loan.

All the small and middle-sized companies which (i) on the 30th of September 2008 were solvent (*in bonis*), and (ii) at the moment of the submission of the request, had no financings classified as "*restructured*" (*ristrutturato*) or as "*non-performing*" (*in sofferenza*) and were not subject to enforcement proceedings, are allowed to request the Suspension. Originally, the request for Suspension could be submitted within the 30th of June 2010. On 15 June 2010, an agreement between the Ministry of Economy and Finance, the ABI (*Associazione Bancaria Italiana*) and the associations of the representative of the companies has extended the date within which the request for the Suspension could be submitted until 31 July 2011.

Only the instalments not yet expired or expired (not paid or paid in part) from not more than 180 days before the date of submission of the request for Suspension may be suspended.

ABI has clarified on one hand that securitised claims have not been expressly excluded from the object of the Convention and that assigning banks have to do any reasonable effort to satisfy the requests for Suspension also in respect of securitized claims.

Furthermore, on 28 February 2012, the ABI and the Ministry of Economy and Finance entered into a new convention (the "New PMI Convention") providing for, inter alia: (i) a 12-month suspension of payments of instalments in respect of the principal of medium-and long-term loans, which did not benefit from the Suspension. The suspension applies on the condition that the instalments (A) are timely paid or (B) in case of late payments, the relevant instalment has not been outstanding for more than 90 days from the date of request of the suspension; and (ii) the possibility for small and middle-sized companies that have not already requested a Suspension to request an extension of the duration of the relevant loans for a period equal to the residual duration of the relevant loans and in any case for a maximum period of two years for unsecured loans and of three years for mortgage loans.

Prospective investors' attention is drawn to the fact that the potential effects of the suspension schemes, the impact on the cash flows deriving from the Loans and, consequently, on the amortisation of the Notes, cannot be predicted.

The Originators have acceded to the New PMI Convention.

## 3.12 Recharacterisation of English Law fixed security interests

There is a possibility that an English court could find that the fixed security interests expressed to be created by the Deed of Charge governed by English law could take effect as floating charges as the description given to them as fixed charges is not determinative.

Where the Issuer is free to deal with the secured assets, or any proceeds received on realisation of the secured assets, without the consent of the chargee, the court would be likely to hold that the security interest in question constitutes a floating charge, notwithstanding that it may be described as a fixed charge.

Whether the fixed security interests will be upheld as fixed security interests rather than floating security interests will depend, amongst other things, on whether the Representative of the Noteholders (acting as security trustee) has the requisite degree of control over the Issuer's ability to deal in the relevant assets and the proceeds thereof and, if so, whether such control is exercised by the Representative of the Noteholders in practice.

If the fixed security interests are recharacterised as floating security interests, the claims of (i) the unsecured creditors (if any) of the Issuer in respect of that part of the net property of the Issuer which is ring fenced as a result of the Enterprise Act 2002 and (ii) certain statutorily defined preferential creditors of the Issuer may have priority over the rights of the Representative of the Noteholders to the proceeds of enforcement of such security. In addition, the expenses of an administration would also rank ahead of the claims of the Representative of the Noteholders as floating charge holder.

A receiver appointed by the Representative of the Noteholders would be obliged to pay preferential creditors out of floating charge realisations in priority to payments to the Other Issuer Creditors (including the Noteholders). Following the coming into force of the insolvency provisions of the Enterprise Act 2002, the only remaining categories of preferential debts are certain amounts payable in respect of occupational pension schemes, employee remuneration and levies on coal and steel production.

If the Representative of the Noteholders was prohibited from appointing an administrative receiver by virtue of the amendments made to the Insolvency Act 1986 by the Enterprise Act 2002, or failed to exercise its rights to appoint an administrative receiver within the relevant notice period and the Issuer were to go into administration, the expenses of the administration would also rank ahead of the claims of the Representative of the Noteholders as floating charge holder.

Furthermore, in such circumstances, the administrator would be free to dispose of floating charge (and fixed charge) assets without the leave of the court, although the Representative of the Noteholders would have the same priority in respect of the property of the company representing the proceeds of disposal of such floating charge assets, as it would have had in respect of such floating charge assets.

## 3.13 Warranty as to the existence of the claims

Under the Transfer Agreements and the Warranty and Indemnity Agreements, the Originators have warranted, *inter alia*, that the Claims are all existing claims and the Originators have undertaken, *inter alia*, to indemnify the Issuer for the breach of any warranties expressed under such agreements. See "Description of the Warranty and Indemnity Agreements".

## **3.14** Forward-looking statements

Words such as "intend(s)", "aim(s)", "expect(s)", "will", "may", "believe(s)", "should", "anticipate(s)" or similar expressions are intended to identify forward-looking statements and subjective assessments. Such statements are subject to risks and uncertainties that could cause the actual results to differ materially from those expressed or implied by such forward-looking statements. The reader is cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this Prospectus and are based on assumptions that may prove to be inaccurate. No-one undertakes any obligation to update or revise any forward-looking statements contained herein to reflect events or circumstances occurring after the date of this Prospectus.

#### 3.15 Regulatory Capital Framework

The regulatory capital framework published by the Basel Committee on Banking Supervision (the "Basel Committee") in 2006 (the "Basel II Framework") has not been fully implemented in all participating countries. The implementation of the framework in relevant jurisdictions may affect the risk-weighting of the Notes for investors who are or may become subject to capital adequacy requirements that follow the framework.

It should also be noted that the Basel Committee has approved significant changes to the Basel II framework (such changes being commonly referred to as "Basel III"), including new capital and liquidity requirements intended to reinforce capital standards and to establish minimum liquidity standards for credit institutions. In particular, the changes refer to, amongst other things, new requirements for the capital base, measures to strengthen the capital requirements for counterparty credit exposures arising from certain transactions and the introduction of a leverage ratio as well as short-term and longer-term standards for funding liquidity (referred to as the "Liquidity Coverage Ratio" and the "Net Stable Funding Ratio"). Member countries will be required to implement the new capital standards from January 2013, the new Liquidity Coverage Ratio from January 2015 and the Net Stable Funding Ratio from January 2018. The European authorities have indicated that they support the work of the Basel Committee on the approved changes in general, and the European Commission's corresponding proposals to implement the changes (through amendments to the Capital Requirements Directive known as "CRD IV") have been presented on 20 July 2011. The changes approved by the Basel Committee may have an impact on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

In general, investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them of any changes to the Basel II framework (including the Basel III changes described above) and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

# 3.16 Regulatory initiatives may result in increased regulatory capital requirements and/or decreased liquidity in respect of the notes

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the asset-backed securities industry. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may have an adverse impact on the regulatory capital charge to certain investors in securitisation exposures and/or the incentives for certain investors to hold asset-backed securities, and may thereby affect the liquidity of such securities. Investors in the Notes are responsible for analysing their own regulatory position and none of the Issuer, the Originators and the Arrangers makes any representation to any prospective investor or purchaser of the Notes regarding the regulatory capital treatment of their investment on the relevant Issue Date or at any time in the future.

In particular, in Europe, investors should be aware of Article 122a of the Capital Requirements Directive ("Article 122a") which applies in general to new securitisations issued on or after 1 January 2011 and, after 31 December 2014, to existing securitisations where new underlying exposures are added or substituted after 31 December 2014. Article 122a restricts an EU regulated credit institution from investing in asset-backed securities unless the originator, sponsor or original lender in respect of the relevant securitisation has explicitly disclosed to the EU regulated credit institution that it will retain, on an ongoing basis, a net economic interest of not less than 5% in respect of certain specified credit risk tranches or asset exposures as contemplated by Article 122a. Article 122a also requires an EU regulated credit institution to be able to demonstrate that it has a comprehensive and thorough understanding of the key terms and risks of the transaction and it has undertaken certain due diligence in respect of, amongst other things, its note position and the underlying exposures and that procedures are established for such activities to be conducted on an on-going basis. Failure to comply with one or more of the requirements set out in Article 122a will result in the imposition of a penal capital charge on the notes acquired by the relevant investor.

In any case, there remains considerable uncertainty with respect to Article 122a and it is not clear what will be required to demonstrate compliance to national regulators. Investors who are uncertain as to the requirements that will need to be complied with in order to avoid the additional regulatory charges for non compliance with Article 122a should seek guidance from their regulator. Similar requirements to those set out in Article 122a are expected to be implemented for other EU regulated investors (such as investment firms, insurance and reinsurance undertakings and certain hedge fund managers) in the future.

Article 122a of the Capital Requirements Directive and any other changes to the regulation or regulatory treatment of the Notes for some or all investors may negatively impact the regulatory position of individual investors and, in addition, have a negative impact on the price and liquidity of the Notes in the secondary market.

With respect to the fulfillment by the Originators of the requirements of the Article 122a please refer to Section "Compliance with Article 122a of the CRD".

#### 3.17 Macro-risks in the European Union

As a result of the credit crisis in the EU, monetary and political conditions and stability remain uncertain in the EU, in particular, in a number of the euro-zone members, including Greece, Italy, Ireland, Portugal and Spain. In particular concerns persist regarding the debt burden of certain Eurozone Countries and their ability to meet future financial obligations, the overall stability of the Euro and the suitability of the Euro as a single currency given the diverse economic and political circumstances in individual Member States. These and other concerns could lead to the re-introduction of individual currencies in one or more Member States, or, in more extreme circumstances, the possible dissolution of the Euro entirely. Should the Euro dissolve entirely, the legal and contractual consequences for the Noteholders would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Notes or have other unforeseen consequences relevant to the Noteholders.

## 3.18 U.S. Foreign Account Tax Compliance Act Withholding

The U.S. Foreign Account Tax Compliance Act ("FATCA") generally imposes a new reporting regime and potentially a 30.00 per cent withholding tax with respect to certain payments to certain non-U.S. financial institutions (including entities such as the Issuer) that do not enter into and comply with an agreement with the U.S. Internal Revenue Service ("IRS") to provide certain information about the holders of its debt or equity. The new withholding regime will be phased in beginning in 2014.

In particular, this withholding tax may be triggered if (i) the issuer is a foreign financial institution ("FFI") (as defined by FATCA), which enters into and complies with an agreement with the IRS to provide certain information on its account holders (a term which includes the holders of its debt or equity interests that are not regularly traded on an established securities market) (making the issuer a "participating FFI"), (ii) any payment by the issuer is considered to be attribuitable to any U.S. source "withholdable payment" to the issuer, and (iii) (a) an investor does not provide information sufficient for the participating FFI to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of such issuer, or (b) any FFI through which payment on the notes or other payments are made is not a participating FFI.

The application of FATCA is not yet clear and therefore is unclear how the FATCA reporting and withholding regime may affect interest, principal or other amounts due under the Notes or any payment to be made by any paying agent or any other Transaction Party. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest or principal on the Notes or other payments from a Party to the Transaction as a result of a holder's failure to comply with these rules or as a result of the presence in the payment chain of a non-participating FFI, none of the Issuer, any paying agent or any other person would, pursuant to the Conditions or any other Transaction Documents, be required to pay additional amounts as a result of the deduction or withholding of such tax.

Holders of notes should consult their own tax advisors about the application of FATCA and on how the above rules may apply to, or affect, payments to be received under the Notes or any other payments to be made by the Parties to the Transaction.

The Issuer believes that the risks described above are the principal risks inherent in the transaction for holders of the Class A Notes but the inability of the Issuer to pay interest or repay principal on the Class A Notes may occur for other reasons and the Issuer does not represent that the above statements of the risks of holding the Class A Notes are exhaustive. While the various structural elements described in this Prospectus are intended to lessen some of these risks for holders of the Class A Notes, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of the Class A Notes of any Class of interest or principal on such Notes on a timely basis or at all. Additional risks and uncertainties not presently known to the Issuer or that it currently believes to be immaterial could also have a material impact on its business operations.

### THE ORIGINATORS

### 1. CO-OPERATIVE CREDIT SYSTEM

### 1.1 The origins of the Italian credit co-operative banking system

Credit co-operative banks (banche di credito co-operativo) were first established at the end of the 19th century following the path of the rural credit co-operatives set up in Germany towards the second half of the same century. One of their aims was to fight usury, common in those times in the countryside, and to facilitate the access of local farmers, shopkeepers and craftsmen to credit facilities. According to their articles of association they were incorporated also to improve shareholders' financial, professional, moral and intellectual conditions. By the end of the 19th century, about 1,000 rural banks for co-operative credit (casse rurali) had been established throughout the country and in 1905 they were pooled together into the Italian Federation of Rural Banks for Co-operative Credit (Federazione Italiana delle Casse Rurali). Subsequently, Local Federations (Federazioni Locali) were also established following the steady increase in number that the rural banks for co-operative credit enjoyed until the 1929 economic crisis, which caused a reduction in the overall number of banks.

Since World War II there has been an increase in the number of rural banks for co-operative credit and only during the last decade has there been a decrease, as the consequence of mergers among themselves.

## Nature of the co-operative banks

The mutual and co-operative nature of the BCCs is evidenced by the pieces of legislation currently regulating them including the Banking Act, the Bank of Italy's guidelines (the Istruzioni di Vigilanza), Law No. 59 of 31 January, 1992 (Nuove norme in materia di società cooperative) and the articles of association of the various BCCs. For historical reasons, BCCs are mutual and co-operative in nature. Originally, their shareholders had to belong to a specific trade or profession (i.e. farmers, small entrepreneurs and craftsmen). Pursuant to the Banking Act, BCCs are to a certain extent restricted in their activities and, in principle, generally provide financial assistance to their shareholders. In fact, the BCCs are subject to a specific requirement that a large proportion of their lending must be conducted with their shareholders. This requirement restricts the activities of BCCs as only persons residing in or having their principal place of business in the area where the bank operates may acquire shares in it. The mutual character of BCCs is further evidenced by the fact that the BCCs must have no fewer than 200 members, with one vote per member regardless of the number of shares held. In any event, the stake of each shareholder may not exceed a face value higher than € 50,000. Credit cooperative banks are incorporated as co-operative companies with limited liability (società cooperative a responsabilità limitata). Unlike ordinary banks, the main goal of the BCCs is not profit maximisation. Instead, they provide financial assistance to their customers and support to the local economy ensuring, at the same time, the long term economic viability of the BCC.

Credit co-operative system structure

The credit co-operative system consists of:

- the BCCs;
- the Local Federations (Federazioni);
- the National Federation (Federcasse Federazione nazionale delle Banche di Credito Cooperativo (Federcasse));
- the ICCREA Group (as defined below);
- the Co-operative Credit Deposits Insurance Fund (Fondo di Garanzia dei Depositanti del Credito Cooperativo) ("FGD"); and

- the co-operative Bond-holders Insurance Fund (Fondo di Garanzia degli Obbligazionisti del Credito Cooperativo) ("FGO").
- the Co-operative Institutional Garantee Fund (Fondo di Garanzia Istituzionale) (FGI) (in progress)

BCCs remain independent within the Local Federations and the National Federation, while benefiting from being part of a wider co-ordinated network.

The Local Federations are divided into fifteen regional federations Federazione BCC Piemonte Valle d'Aosta Liguria, Federazione Lombarda delle BCC, Federazione Cooperative Raiffeisen, Federazione Trentina della Cooperazione, Federazione Veneta delle BCC, Federazione delle BCC del Friuli Venezia Giulia, Federazione delle BCC dell'Emilia Romagna, Federazione Toscana BCC, Federazione Marchigiana delle BCC, Federazione delle BCC del Lazio Umbria Sardegna, Federazione delle BCC dell'Abruzzo e del Molise, Federazione Campana delle BCC, Federazione delle BCC di Puglia e Basilicata, Federazione Calabrese delle BCC, Federazione Siciliana delle BCC.

The Local Federations have the following functions: representation, promotion, coordination, technical assistance and monitoring of members. They also manage joint services for the members and provide local coordination for the FDG. The Local Federations are joined at the national level in the Federcasse, constituted in 1950. The Federcasse provides strategic planning of this network, communication services, legal advice, research and statistics, industrial relations, training guidelines. At the international level, Federcasse is an active member of various international organisations in the sector of co-operative banks. Federcasse is a member of the Association of European Co-operative Banks (Abce - Gebc - Groupement) whose seat is in Brussels and which represents the co-operative banking system before the European Union and the various national institutions. Federcasse is also a member of the Unione Internazionale Raiffeisen (Iru), whose seat is in Bonn. This is an organisation for the worldwide promotion of the co-operative banking system, with a particular focus on depressed areas. The Italian co-operative system, via ICCREA, is a member of the Unico Banking Group, an organisation established in 1977 by the largest European co-operative banks' organisations (the Belgian Kbc Bank, the French Credit Agricole, the German Dg Bank, the Finnish Okobank, the DutchRabobank Group, the Austrian Rzb, the Spanish Banco Cooperativo, and the Swiss Banks' Union Raiffeisen). This organisation aims at integrating the participants' know-how and services in order to increase the importance of the co-operative banking system within the general, international banking system.

The ICCREA banking group (the "ICCREA Group") is registered in the roll of banking groups kept by the Bank of Italy under No. 20016 and has operated since 1995, when a significant reorganization took place which separated the credit activities (attributed to ICCREA Banca S.p.A.) and the activities of management and control of the entire ICCREA Group (which have been retained by Iccrea Holding S.p.A. in its capacity as parent company, of the ICCREA Group pursuant to article 60 of the Banking Act). The shareholders of Iccrea Holding S.p.A. are the BCCs, Federcasse, the Local Federations and the two Casse Centrali di Trento e Bolzano which operate as central cooperative banks within their respective territories.

The main activities of Iccrea Holding S.p.A. include the supervision and co-ordination of all the entrepreneurial activities carried out within the ICCREA Group and in particular the activities of:

ICCREA Banca S.p.A., Iccrea BancaImpresa S.p.A. (which operates in the leasing sector), AureoGestioni S.g.r.p.A. (an asset management company), BCC Gestione Crediti, BCC Solutions, BCC Multimedia, BCC Assicurazioni (merchant bank), BCC Vita Spa (life insurance company), BCC Credito Consumo, BCC Private Equity.

The Italian co-operative banking system includes a deposits protection scheme established as early as 1978 exclusively for the BCCs: the "Fondo Centrale di Garanzia delle C.R.A." then replaced in 1997 by the "Fondo di Garanzia dei Depositanti del Credito Cooperativo" which was established as a result of the implementation of the European directive of bank depositors protection. The financial contribution is not paid into the fund; it is available on request when a depositors' reimbursement is needed, and it is accounted into the BCCs' books.

The Italian co-operative banking system includes also a bond-holders' protection scheme which was established in 2004 as a voluntary consortium among banks which are members of the Local Federations of Cooperative Banks. As of today 296 banks are members of the FGO which guarantees 3.803 bond issued for a total amount of about € 25.6 billions.

In 2008 the Co-operative Credit system lunched the project for a new Institutional Protection Scheme (FGI), designed according to the article 80 (8) of the Basel II Directive. In December 2011 its statute obtained the authorization by the Bank of Italy. Full authorization is expected by mid 2013. By adhering to the FGI, BCCs agree – to the greater benefit of their customers – to stricter rules on controls and monitoring and receive in return a series of benefits, amongst which the 0 risk weight for operations with other members of the scheme (once specific authorization has been granted by the Supervisory body), the optimization of the system of controls and of liquidity management. The FGI, moreover, represent a multiplier for a greater development of the system: it accelerates its processes of integration of the associative and productive components, it favors the strengthening of the operational processes – including risk management – and the harmonization of methods and standards.

The following are compulsorily members of the FGD: the BCCs, the Casse Rurali of Trentino, the Casse Raiffeisen in Alto Adige and the Italian branches of non-Italian co-operative banks. In addition also ICCREA Banca S.p.A., the Casse Centrali of Trento and Bolzano and Banca Sviluppo S.p.A. are members of the FGD.

The FGD is distinct from the Fondo Interbancario per la Tutela dei Depositi which has the same role as far as non co-operative banks are concerned.

Once a distressed situation is detected, a range of solutions may be implemented by Federcasse, Local Federations and the FGD, together with Bank of Italy. The range of joint interventions within the system includes:

- moral suasion for the implementation of a recovery plan;
- change in management;
- tutorship between sound BCCs and distressed BCCs;
- mergers between nearby BCCs;
- zero-interest credit lines provided by the FGD for the implementation of a recovery plan;
- coverage transaction provided by the FGD and aimed at balancing assets and liabilities of a distressed BCC in favour of any acquiring bank;
- depositors' refund via the FGD up to a maximum amount of  $\in$  100,000 per depositor and provided that the overall amount of depositors' refunds does not exceed 0.80 per cent of the BCCs' bank deposits which, as at 30th June, 2011, were equal to  $\in$  740.106.076.
- Banca Sviluppo S.p.A., owned by Iccrea Holding S.p.A.; it has, among other objectives, the task of acquiring distressed BCCs and can intervene as a very last resort.

Since 1997, the FGD has intervened to recover 63 Member Banks, through:

- the issue of guarantees for a total amount of  $\in$  440,900,000 (data as at the 30th June 2012);
- cash contributions for a total amount of € 252,613,000 (data as at the 30th June 2012).

# 1.2 The shareholders

The special characteristic of the BCC juridical form is the importance of its shareholders. In the beginning a BCC shareholder had to be a member of a defined profession (i.e. farmer, small entrepreneur or craftsman). Nowadays the main prerequisite to become a BCC shareholder is to live or to do business within the BCC's geographical operating region, thus expanding and facilitating access to BCC membership. In fact the Consolidated Banking Act provides that shareholders cannot

number less than 200 and must represent at least 50% of the BCC's customers. Two other provisions establish that each shareholder shall have one vote, whatever the number of shares owned and that the nominal value of the shares held by each shareholder shall not exceed Euro 50,000.

#### 1.3 The BCCs

The main features of a BCC are as follows:

- (i) they are local banks supporting families and businesses inside a defined area;
- (ii) they are mutual-purpose, non profit-oriented banks which are supposed to use part of their net income for charitable purposes;
- (iii) they are part of the "Co-operative Credit System" and can offer their customers a wide range of financial products and services as economics of scale.

As at 31st December 2011, the Co-operative Credit System included 412 banks and 4,411 branches, involves a high number of human resources as shown by the following data:

- (i) 1.156.711 shareholders:
- (ii) 4,422 Presidents, Vice Presidents and Members of the Board;
- (iii) 818 General Managers;
- (iv) 2,235 Auditors;
- (v) 6,700,000 customers;
- (vi) 36,500 employees.

The BCCs' network covers 2,711 towns. As of 31st December 2011, the BCCs recorded the following:

- (i) total deposits of EURO 152,2 billion;
- (ii) total lending of EURO 139,9 billion;
- (iii) shareholders' equity of EURO 19,7 billion.

### 1.4 The Federations

The Co-operative Credit System includes BCCs, Local Federations, the National Federation (Federcasse), Casse Centrali di Trento e Bolzano, ICCREA Holding and involves other "product companies" such as ICCREA Banca, Banca Agrileasing, Aureogestioni, etc.

The BCCs remain independent within the Federations, while benefiting from the co-ordination and co-operation of the Co-operative Credit System.

The Local Federations are divided into fifteen regional federations Federazione BCC Piemonte Valle d'Aosta Liguria, Federazione Lombarda delle BCC, Federazione Cooperative Raiffeisen, Federazione Trentina della Cooperazione, Federazione Veneta delle BCC, Federazione delle BCC del Friuli Venezia Giulia, Federazione delle BCC dell'Emilia Romagna, Federazione Toscana BCC, Federazione Marchigiana delle BCC, Federazione delle BCC del Lazio Umbria Sardegna, Federazione delle BCC dell'Abruzzo e del Molise, Federazione Campana delle BCC, Federazione delle BCC di Puglia e Basilicata, Federazione Calabrese delle BCC, Federazione Siciliana delle BCC.

The two main roles of the Federations are to co-ordinate and to promote BCC products as well as to provide technical assistance and advice. The Local Federations have instituted external IT Centres whose network covers all the Italian geographical regions.

### 1.5 ICCREA Holding

Iccrea Holding monitors, guides and coordinates Iccrea Banking Group Companies to achieve tailored quality products and services, defining business strategies, planning and result monitoring. ### **BCC Civitanova Marche e Montecosaro**

#### Historical Background

Banca di Credito Cooperativo di Civitanova Marche e Montecosaro, founded in Macerata on 7th August 1971, belongs to the non-profit cooperative banking system.

BCC di Civitanova Marche e Montecosaro originated from the merger of pre-existing credit entities: Cassa Operaia di Depositi e Prestiti di Montecosaro (founded in 1897) and Cassa Rurale ed Artigiana di Civitanova Marche (created in 1901) definitively being called Cassa Rurale ed Artigiana di Civiotanova Marche e Montecosaro. Since then, despite legal constraints of the time, the Bank has grown alongside the local community, sticking to their distinctive characteristics based on mutuality and co-operation, without losing sight of the need of new approaches, so as to be able to offer qualified intervention to members and clients.

From 12th March 1992 the bank's name was changed to the current Banca di Credito Cooperativo di Civitanova Marche e Montecosaro. Between 1998 and 2008 the entity was well placed in the catchment area of the municipalities of the Province of Macerata (Civitanova Marche, Montecosaro Scalo, Porto San Giorgio, Porto Sant'Elpidio, Campiglione and Fermo).

The bank's chief objective is to ensure an innovative service to members and the local community, cooperatively promoting its development and participation without any private speculation. The satisfaction of its members represents their strategic objective: in this way the continual increase of economical facilities and social initiatives that the bank offers their members, must be taken into consideration.

### Banca di Arborea

## Historical Background

Banca di Credito Cooperativo di Arborea, founded in December 1980 but only becoming operative in 1982, started off in a small 40 sq.mt .office and then moved to bigger premises of 130 sq.mt., finally opening a branch on four floors of about 2,100 sq.mt. in 1990.

Banca Arborea's success is due to its good business organization that localised its strong cooperative spirit, reciprocal cooperation and joint liability to offer an efficient tool to make the bank as flexible and personalised as possible.

Banca di Arborea are as able to guarantee the same management and organisation as the larger already present groups, thanks to the multifunctional structure of their affiliation group, like the federation of the Cooperative Credit Banks totalling some 500 banks throughout Italy, with 2,800 counters and institutions belonging to ICCREA Bank and ICCREA Holding, to whom Assimoco (Insurance), ICCREA Bancalimprese (leasing), Aurea Gestioni (Common funds and managed savings) etc. refer to.

Their strongholds are: company foundation/social base (base sociale), equality amongst members who each have a right to vote irrespective of how many shares are owned and the obligation of the legal reserves to contribute towards the promotion and development of the cooperation.

Rather than size, what is far more important is their solidity, reliability, expertise and drawdown timing.

### **BCC Vicentino**

### Historical Background

The BCC Vicentino - Poiana Maggiore was founded in September 1895, as Cassa Rurale di Prestiti, by Don Valentino Tirapelle and Don Giuseppe Pillon together with other 12 members.

Those pioneers were animated by the desire to support a community of small farmers and artisans with limited economic means and who worked in the local area

For this reason, three months after BCC's establishment, the 12 initial members, become 83, and within a year become almost 122.

The '20s saw the birth, thanks to the Cassa Rurale, of the important consumer cooperative "Agricola Pojanese". In the 30s, despite the general economic crisis, the Bank does not seem to experience difficulties.

In 1994 the Bank has incorporated Cassa Rurale ed Artigiana di Zermeghedo. The territorial expansion of the Bank has intensified over the past 15 years. It has been oriented in the territory between the provinces of Verona and Vicenza, particularly in the south and north of the A-4 Serenissima.

#### COLLECTION POLICY AND RECOVERY PROCEDURES

## 1. CREDIT POLICY

Although each Originator has its own characteristics and procedures for the administration of its banking activities, it is possible to give a general overview of the credit policy based on some factors, common to all the Originators.

The common credit policies concerning the origination of the loans can be divided into 3 different steps:

- (i) Credit Facility Request by clients
- (ii) Preliminary Investigation step
- (iii) Decisional step.

Steps (i) and (ii) are entirely carried out by the branch.

In particular, the request starts with a customer interview and the assessment of client eligibility through the collection of vital statistics and of the income and financial positions. Once an agreement is reached, this step ends with the customer's signature on the credit facility application form.

The preliminary investigation step begins with the acquisition of all the information and ends with the assessment of collaterals provided by the customer.

This step includes also Accounting and Statistics Questions. The results of the analysis effectuated are collected in a file keep stored at the branch

The final decision can be taken or by the Branch Manager, on the basis of its decision making autonomy, or by another responsible deliberative body.

In the latter case, the Branch will evaluate the creditworthiness of the credit facility, will express an opinion and will forward the request to the competent body.

The decisional step is different in relation to the type of mortgage (mortgage versus unsecured).

Loan pre-payment is generally in charge of the branch. In some particular cases, such as all the securitized positions, the branch must receive a written client request, sends it to the Credit Office and receives payment and any accrued interest on the outstanding loan

During the evaluation process of the loan request, several inquiries are carried out such as:

- (i) Economic / Financial situation and repayment ability
- (ii) Analysis of the banking relationship with the customer;
- (iii) Analysis of customer's assets and its financial situation;
- (iv) Analysis of the business sector in which the customer operates;

- (v) Analysis of the guarantees provided by customers and adequacy of the same with respct to the loan to be granted
- (vi) if considered necessary, the analysis may be extended to customer's family

The evaluation is carried out in order to verify customer's earning capacity, financial stability and financial ability to repay the loan in order to decide whether the customer is creditworthy.

With reference to the lending decision, the body / person in charge of such decision, can various in relation to the role in the organization, risks of individual technical forms of credit and branch size.

## 2. RISK MANAGEMENT

The following is a general overview of the common structures and procedures of the banks.

In every Originator there are two levels of control which can be recognised: primary or ordinary controls and higher or extraordinary controls.

The responsibility of the different levels of control is strictly separate, as the primary controls are carried out by the organisational structures known as "in-line offices" (branches, credit department, *etc.*) while the extraordinary controls are carried out by central structures known as "staff offices" (legal department, risk controller, risk management committee, *etc.*).

All the risk management activities are fully supported electronically and fully automatic through EDP systems. EDP transmissions with codified information between branches and their respective head-office are continuous and telephone contact is ensured.

All the Originators base their activity on a regular system of written reports, thus providing immediate communication to the management on the relevance of all problem loans.

The Originators issue a series of verbal and written reminders before involving their respective legal departments. The first contact after the first overdue instalment is generally made by the branch in a personal, courteous way. If no positive answer is received from the customer and according to the importance of the risk position, a second reminder is made either by the branch or by the head office. A last reminder is generally sent by the head office before the full involvement of the legal department.

For the monitoring the loans the Originators take into consideration both subjective elements (professional valuers' valuations of the customer's assets and of the property guaranteeing the loan; direct knowledge) and objective elements (balance sheet analysis, analysis of the banking relationship, payment anomalies)

In particular, problem loans with payment anomalies are kept under stricter monitoring and are classified on the basis of the following criteria:

"Watch List": when there are serious anomalies but it is assumed that the relevant relationship will go back to regularity and there is no need of special activity;

"Delinquent": a loan extended to a customer who is experiencing temporary financial difficulties and which it is foreseen it will overcome within a certain period of time, with no need of going through a credit recovery proceeding but subject to close scrutiny;

"Non-performing": when the customer is a state of insolvency, even if not ascertained, for

which a legal proceeding has been commenced or is in severe financial distress.

The board of directors or eventually the general management decides whether the loan should be registered either as a delinquent or as a defaulted loan.

## 3. CREDIT RECOVERY POLICY

The credit recovery activities of all the BCC's are assigned to an external legal counsel which remains in constant contact with the bank's legal department or the relevant department. Both the external counsel and the legal department are directly involved in any legal action. The departments involved submit periodic reports to the general management and/or the board of directors on the status of credit recovery activities.

The close working relationship between the branches and the external advisors results in promptness and persistence in following up on this activity.

#### WEIGHTED AVERAGE LIFE OF THE CLASS A NOTES

Under the Conditions, the Final Maturity Date of the Notes is the Payment Date falling on December 2052 and the Notes will be subject to mandatory redemption in full or in part on the Payment Date falling on the First Payment Date and on each Payment Date falling thereafter to the extent that on such Payment Date the Issuer has sufficient available funds to be applied for this purpose in accordance with the applicable Order of Priority. The Notes may also be subject to optional redemption in full under certain circumstances.

The tables below show the expected average lives of the Senior Notes on the basis of various assumptions regarding prepayment rates. The assumptions used to calculate the expected average lives of the Notes hereunder are based on the historical performance of the loans originated by each of the Originators having the same characteristics as those of the Claims.

Moreover, the following assumptions have been made:

- (i) the Issuer will exercise its option to redeem the Notes under Condition 6.4 (*Optional Redemption*);
- (ii) there are no delinquencies or defaults in respect of the Portfolios;
- (iii) no Trigger Event has occurred in respect of the Notes; and
- (iv) no redemption for taxation under Condition 6.2 (*Redemption for Taxation*) has occurred in respect of the Notes.

COSTANT PREPAYMENT RATE	CLASS A NOTES	
(% per annum)	Expected Average life (Years)	Expected maturity
5%	1.94	12/18/2017
6%	1.87	9/18/2017
7%	1.81	6/18/2017
8%	1.76	6/18/2017
9%	1.71	3/18/2017
10%	1.66	3/18/2017

The base case assumption above reflects the current expectations of the Issuer but no assurance can be given that the redemption of the Class A Notes will occur as described above. The prepayment rates are stated as an average annual prepayment rate but the prepayment rate for one Interest Period may substantially differ from one period to another. The constant prepayment rates shown above are purely illustrative and do not represent the full range of possibilities for constant prepayment rates.

The average life of the Class A Notes is subject to factors that are largely out of the control of the Issuer. As a consequence no assurance can be given that the above estimates will prove in any way to be realistic and therefore they must be considered with caution.

#### 2. STATUS, PRIORITY AND SEGREGATION

(1) The Notes constitute secured limited recourse obligations of the Issuer and, accordingly, the extent of the obligation of the Issuer to make payments under the Notes is conditional upon the receipt and recovery by the Issuer of amounts due, and is limited to the extent of any amounts received or recovered by the Issuer, in each case, in respect of the Portfolio and the other Issuer's Rights. Notwithstanding any other provision of these Conditions, the obligation of the Issuer to make any payment under the Notes shall be equal to the lesser of (a) the nominal amount of such payment and (b) the Issuer Available Funds and the Single Portfolio Available Funds which may be applied for the relevant purpose, in accordance with the applicable Order of Priority and the terms of the Intercreditor Agreement and neither the Representative of the Noteholders nor any relevant Noteholder may take any further steps against the Issuer or any of its assets to recover any unpaid sum and the Issuer's liability for any unpaid sum will be extinguished. The Noteholders acknowledge that the limited recourse nature of the Notes produces the

effects of a "contratto aleatorio" under Italian law and are deemed to accept the consequences thereof, including but not limited to the provisions under article 1469 of the Italian Civil Code. Without prejudice to the acknowledgement that the limited recourse nature of the Notes produces the effects of a "contratto aleatorio", any payment obligations of the Issuer under the Notes as have remained unpaid to the extent referred to above upon the earlier of (i) following the completion of any proceedings for the recovery of all Claims, the date on which such recoveries (if any) are paid in accordance with the applicable Order of Priority, (ii) following the sale of the Portfolios, the date on which the proceeds of such sale (if any) are paid in accordance with the applicable Order of Priority, and (iii) the Final Maturity Date (following application of the Single Portfolio Available Funds or the Issuer Available Funds on such date in accordance with the applicable Order of Priority), shall be deemed extinguished as if the relevant claims had hereby been irrevocably relinquished and surrendered by the Noteholders to the Issuer and the Noteholders will have no further recourse to the Issuer in respect of such obligations.

- (2) The rights arising from the Security Documents in favour of the Noteholders which are incorporated in each of the Notes are transferred together with the transfer of any Note at the time of transfer of such Note. Each holder of any of the Notes from time to time will have the benefit of such rights. In addition, by operation of Italian law, the Issuer's right, title and interest in and to the Portfolios is segregated from all other assets of the Issuer. Amounts deriving from the Portfolios (for so long as such amounts are credited to one of the Issuer's accounts under this Transaction and not commingled with other sums) will only be available, both prior to and following the winding-up of the Issuer, to satisfy the obligations of the Issuer to the Noteholders and the Other Issuer Creditors in accordance with the applicable Order of Priority set forth in Condition 4 and to any third party creditors in respect of costs, fees and expenses incurred by the Issuer to such third party creditors in relation to the Transaction.
- (3) The Notes of each Class will rank *pari passu* and without any preference or priority among themselves.
- (4) As long as the Notes of a Class ranking in priority to the other Classes of Notes are outstanding, unless notice has been given to the Issuer declaring the Notes of such Class due and payable, the Notes of the Class(es) ranking below may not be declared due and payable and the Noteholders of the outstanding Class of Notes ranking highest in priority shall be entitled to determine the remedies to be exercised.
- (5) The Intercreditor Agreement contains provisions regarding the protection of the respective interests of all Noteholders in connection with the exercise of the powers, authorities, rights, duties and discretion of the Representative of the Noteholders under or in connection with the Notes or any of the Transaction Documents. If, however, in the opinion of the Representative of the Noteholders, there is or may be a conflict between the interests of the Noteholders of any Class(es) of Notes, the Representative of the Noteholders is required to regard only the interests of the Class of Noteholders ranking highest in the applicable Order of Priority, until such Class of Notes has been redeemed in full.
- (6) Without prejudice to the right of the Representative of the Noteholders to enforce the Security Documents or to exercise any of its other rights, and subject as set out in the Rules of Organisation of the Noteholders, no Class A Noteholder and no Class B Noteholder shall be entitled to institute against the Issuer, or join any other person in instituting against the Issuer, any reorganisation, liquidation, bankruptcy, insolvency or similar proceedings until two years plus one day have elapsed since the day on which the Notes and any other notes issued by the Issuer under any further securitisations in

## 5. INTEREST

# **5.1** Payment Dates and Interest Periods

Each of the Class A Notes bears interest on its Principal Amount Outstanding from (and including) the Issue Date at an annual rate equal to the lower of (i) Three Month EURIBOR (as defined below), (or in the case of the Initial Interest Period, the linear interpolation between the Euribor for 2 month and 3 month deposits in Euro) plus the following relevant margin of 0.20% per annum in respect of the Class A Notes and (ii) 8% per annum.

Save as provided for in Condition 5.8, interest in respect of the Class A Notes is payable quarterly in arrears on each Payment Date in Euro.

Interest in respect of each Series of the Class B Notes is payable quarterly in arrears on each Payment Date in Euro in an amount equal to the relevant Single Series Class B Notes Interest Payment Amount as determined by the Computation Agent on the relevant Calculation Date.

Interest in respect of any Interest Period or any other period will be calculated on the basis of the actual number of days elapsed and a 360 day year.

Interest shall cease to accrue on any part of the Principal Amount Outstanding of the Notes as from (and including) the due date for redemption of such part unless payment of principal due but unpaid is improperly withheld or refused, whereupon interest shall continue to accrue on

such principal (after as well as before judgment) at the rate from time to time applicable to the Notes until whichever is the earlier of:

- (i) the date on which all amounts due in respect of such Note up to that date are received by or on behalf of the relevant Noteholder; and
- (ii) the date on which the relevant Notes are cancelled in accordance with the Conditions.

#### 5.2 Interest Rate

The rate of interest applicable from time to time in respect of the Class A Notes ("Interest Rate") will be determined by the Agent Bank on the relevant Interest Determination Date.

The Interest Rate applicable to the Class A Notes for each Interest Period shall be the lower of:

- 5.2.1 the aggregate of the Relevant Margin; and (A) EURIBOR for three month deposits in Euro calculated as the arithmetic mean of the offered quotations to leading banks (rounded to three decimal places with the mid-point rounded up) for three month Euro deposits in the Euro-zone inter-bank market which appear on Bloomberg Page EUR003M index (or, in the case of the first Interest Determination Date only, the linear interpolation between the Screen Rate for Euribor for 2 month and 3 month Euro deposits (the "Additional Screen Rate")) or (i) such other page as may replace page "EUR003M" on that service for the purpose of displaying such information or, (ii) if that service ceases to display such information, such page displaying such information on such equivalent service (or, if more than one, that one which is approved in writing by the Representative of the Noteholders to replace the Bloomberg Page) (the "Screen Rate"), at or about 11.00 a.m. (Milan time) on the relevant Interest Determination Date; or
  - (B) if the Screen Rate (or, in the case of the first Interest Determination Date only, the Additional Screen Rate) is unavailable at such time for three month Euro deposits, then the rate for the relevant Interest Period shall be the arithmetic mean (rounded to three decimal places with the mid-point rounded up) of the rates notified to the Agent Bank at its request by each of the Reference Banks (as defined in Condition 5.7 hereof) as the rate at which three month Euro deposits (or, in the case of the first Interest Determination Date only, the linear interpolation between the Screen Rate for 2 month and 3 month Euro deposits) in a representative amount are offered by that Reference Bank to leading banks in the Euro-zone inter-bank market at or about 11.00 a.m. (Milan time) on the relevant Interest Determination Date. If, on any such Interest Determination Date, only two of the Reference Banks provide such quotations to the Agent Bank, the rate for the relevant Interest Period shall be determined, as aforesaid, on the basis of the offered quotations of those Reference Banks providing such quotations. If, on any such Interest Determination Date, only one or none of the Reference Banks provides the Agent Bank with such quotation, the Agent Bank shall forthwith consult with the Representative of the Noteholders and the Issuer for the purpose of agreeing one additional bank (or, where none of the Reference Banks provides such a quotation, two additional banks) to provide such a quotation or quotations to the Agent Bank (which bank or banks is or are in the opinion of the Representative of the Noteholders suitable for such purpose) and the rate for the relevant Interest Period shall be determined, as aforesaid, on the basis of the offered quotations of such banks (or, as the case may be, the offered quotations of such bank and the relevant Reference Bank). If no such bank (or banks) is (or are) so agreed or such bank (or banks) as agreed does not (or do not) provide such a quotation (or quotations), then the rate for the relevant Interest Period shall be the rate

in effect for the last preceding Interest Period to which sub-paragraph (A) of this Condition 5.2.1 shall have applied (the "**Three Month EURIBOR**"); and

(C) 8% per annum.

# 5.3 Determination of the Interest Rate, Calculation of the Interest Amount and Single Series Class B Notes Interest Payment Amount

- 5.3.1 The Agent Bank shall, on each Interest Determination Date:
  - (i) determine the Interest Rate applicable to the Class A Notes for the Interest Period beginning after such Interest Determination Date (or in the case of the Initial Interest Period, beginning on and including the Issue Date); and
  - (ii) calculate the Euro amount (the "Interest Amount") accrued on the Class A Notes in respect of each Interest Period. The Interest Amount in respect of any Interest Period shall be calculated by applying the relevant Interest Rate to the Principal Amount Outstanding of the Class A Notes on the Payment Date at the commencement of such Interest Period (after deducting therefrom any payment of principal due on that Payment Date) or, in the case of the Initial Interest Period, on the Issue Date, and by multiplying the product of such calculation by the actual number of days to elapse in the relevant Interest Period divided by 360, and rounding the resultant figure to the nearest cent (half a cent being rounded up).
- 5.3.2 The Computation Agent shall on each Calculation Date determine with respect to each Series of Class B Notes, the Single Series Class B Notes Interest Payment Amount (if any) applicable on the Payment Date following such Calculation Date.

#### 5.4 Publication of the Interest Rate and the Interest Amount

# 5.5 Determination and Calculation by the Representative of the Noteholders

If the Agent Bank does not at any time for any reason determine the Interest Rate and/or does not calculate the Interest Amount, or the Computation Agent does not determine the Single Series Class B Notes Interest Payment Amount, in accordance with Condition 5.3 above, the Representative of the Noteholders shall:

- 5.5.1 determine the Interest Rate at such rate as (having regard to the procedure described in Condition 5.2 above) it shall consider fair and reasonable in all circumstances; and/or (as the case may be),

The Representative of the Noteholders shall be appointed for unlimited term and can be removed by the Meeting at any time.

In the event of a termination of the appointment of the Representative of the Noteholders for any reason whatsoever, the Representative of the Noteholders shall remain in office until acceptance of appointment by the substitute Representative of the Noteholders designated among the entities indicated in (1), (2) and (3) above and until such substitute Representative of the Noteholders has entered into the Intercreditor Agreement and the other relevant Transaction Documents; should said acceptance of appointment by the substitute Representative of the Noteholders not occur within thirty days after such termination, the terminated Representative of the Noteholders shall be entitled to appoint, in the name and on behalf of the Issuer, its own successor, convening a fee not higher than the fee that such terminated Representative of the Noteholders agreed with the Issuer, provided that any such successor shall satisfy all the conditions set out above; and the powers and authority of Representative of the Noteholders whose appointment has been terminated shall be limited to those

necessary for the performance of the essential functions which are required to be complied with in connection with the Notes.

The directors, auditors (if any), employees of the Issuer and those who fall within the conditions indicated in article 2382 and article 2399 of the Italian Civil Code in respect of the Issuer cannot be appointed Representative of the Noteholders, and, if appointed, shall be automatically removed from the appointment.

As consideration to the Representative of the Noteholders for the obligations undertaken by the same as from the date hereof under these Rules and the Transaction Documents, the Issuer shall pay to the Representative of the Noteholders an annual fee, such fee being agreed in a separate side letter. The above fees and remuneration shall accrue from day to day and shall be payable in accordance with the applicable Order of Priority up to (and including) the date when the Notes have been repaid in full or cancelled in accordance with the Conditions.

### Article 26 (Duties and Powers)

The Representative of the Noteholders is the legal representative of the Organisation of Noteholders subject to and in accordance with the Conditions, these Rules, the Intercreditor Agreement and the other Transaction Documents to which it is a party (together, the "**Relevant Provisions**").

Subject to the Relevant Provisions, the Representative of the Noteholders is responsible for implementing the decisions of the Meeting and for protecting the Noteholders' interests *vis-a-vis* the Issuer, in accordance with and following any resolution taken by the Meeting. The Representative of the Noteholders has the right to attend Meetings. The Representative of the Noteholders may convene a Meeting to obtain instructions from the Relevant Class Noteholders on any action to be taken.

All actions taken by the Representative of the Noteholders in the execution and exercise of all its powers and authorities and of discretion vested in it shall be taken by duly authorised officer(s) for the time being of the Representative of the Noteholders.

The Representative of the Noteholders may also, whenever it considers to be expedient and in the interests of the Noteholders, whether by power of attorney or otherwise, delegate to any Person(s) all or any of the powers, authorities and discretion vested in it as aforesaid. Any such delegation may be made upon such terms and conditions and subject to such regulations (including power to subdelegate) as the Representative of the Noteholders may think fit, provided that: (a) the Representative of the Noteholders shall use all reasonable care and skill in the selection of the sub-agent, subcontractor or representative which must fall within one of the categories set forth in Article 25 herein; and (b) the sub-agent, sub-contractor or representative shall undertake to perform the obligations of the Representative of the Noteholders in respect of which it has been appointed.

The Representative of the Noteholders shall in any case be responsible for any loss incurred by any misconduct or default on the part of such delegate or sub-delegate. The Representative of the Noteholders shall as soon as reasonably practicable give notice to the Issuer of the appointment of any delegate and the renewal, extension and termination of such appointment and shall procure that any delegate shall also as soon as reasonably practicable give notice to the Issuer of any sub-delegate.

The Representative of the Noteholders shall act in accordance with the provisions of article 1176, paragraph 2, of the Italian Civil Code.

The Representative of the Noteholders shall be authorised to represent the Organisation of Noteholders in judicial proceedings (including Bankruptcy Proceedings) involving the Issuer.

The Representative of the Noteholders may resign at any time upon giving not less than three calendar months' notice in writing to the Issuer without giving any reason therefore and without being responsible for any costs occasioned by such resignation. The resignation of the Representative of the Noteholders shall not become effective until the Meeting has appointed a new representative of the Noteholders and until such new representative of the Noteholders has entered into the Intercreditor Agreement and the other relevant Transaction Documents. If a new representative of the Noteholders is not appointed by the Meeting within sixty days after such notice of resignation, the resigning Representative of the Noteholders will be entitled to appoint its own successor, in the name and on behalf of the Issuer and convening a fee not higher than the fee that the resigning Representative of the Noteholders agreed with the Issuer, *provided that* any such successor shall satisfy with the conditions of Article 25 herein.

- (vii) call for, accept and place full reliance on and as sufficient evidence of the facts stated therein, a certificate or letter of confirmation certified as true and accurate and signed on behalf of any common depository as the Representative of the Noteholders considers appropriate, or any form of record made by any such depository to the effect that at any particular time or throughout any particular period, any particular person is, was, or will be, shown in its records as entitled to a particular number of Notes;

- (viii) certify whether or not a Trigger Event is in its opinion materially prejudicial to the interests of the Noteholders and if any proceedings referred to under Condition 9(d) are disputed in good faith, and any such certificate or opinion shall be conclusive and binding upon the Issuer, the Noteholders, the Other Issuer Creditors and any other relevant Person and if the Representative of the Noteholders so certifies and serves a Trigger Notice pursuant to Condition 9, it shall, in the absence of gross negligence (*colpa grave*) or wilful misconduct (*dolo*) on its part, be fully indemnified by the Issuer against all fees, costs, expenses, liabilities, losses and charges which it may incur as a result.
- (ix) determine whether or not a default in the performance by the Issuer of any obligation under the provisions of these Rules or contained in the Notes or any of the other Transaction Documents is capable of remedy and, if the Representative of the Noteholders shall certify that any such default is, in its opinion, not capable of remedy, such certificate shall be conclusive and binding upon the Issuer, the Noteholders and any relevant Person and the Representative of the Noteholders shall not be responsible for or required to insure against any cost and loss incurred in connections with any such certificate;
- (x) assume without enquiry that no Notes are for the time being held by or for the benefit of the Issuer;

The Representative of the Noteholders shall be entitled to:

- (b) for the purpose of exercising any right, power, trust, authority, duty or discretion under or in relation to the Transaction Documents or the Notes, in considering whether such exercise would be materially prejudicial to the interests of the Other Issuer Creditors, take into account, amongst other things, any written confirmation from the Rating Agencies that the then current ratings of the Notes would not be adversely affected by such exercise;

Prior to undertaking any action, the Representative of the Noteholders shall be entitled to request at the Meeting to be indemnified and/or provided with security to its satisfaction against all actions, proceedings, claims and demands to which it may render itself liable and all costs, charges, damages, expenses and liabilities which it may incur by taking such action.

Any consent or approval given by the Representative of the Noteholders under these Rules and any other Transaction Document may be given on such terms and subject to such conditions (if any) as the Representative of the Noteholders deems appropriate and notwithstanding anything to the contrary contained herein, or in other Transaction Document, such consent or approval may be given retroactively and shall be, in any case, notified to the Rating Agencies.

No provision of these Rules and any Transaction Document shall require the Representative of the Noteholders to do anything which may be illegal or contrary to applicable law or regulation or expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties,

or in the exercise of any of its rights or powers, if the Representative of the Noteholders shall have reasonable grounds for believing that it will not be reimbursed for any amounts, or that it will not be indemnified against any loss or liability, which it may incur as a result of such action.

### Article 29 (Security Documents)

The Representative of the Noteholders is entitled to exercise all rights granted by the Issuer in favour of the Noteholders and the Other Issuer Creditors under the Deed of Pledge. The Representative of the Noteholders (acting as security trustee) is entitled to exercise all rights granted by the Issuer to it in its capacity as trustee for the Noteholders and for the Other Issuer Creditors under the Deed of Charge.

The Representative of the Noteholders, acting on behalf of the Secured Parties, may:

- (a) appoint and entrust the Issuer to collect, in the Secured Parties' interest and on their behalf, any amounts deriving from the pledged claims and rights and may instruct, jointly with the Issuer, the relevant debtors of the pledged claims to make any payments to be made thereunder to an Account of the Issuer;
- (b) agree that all funds credited to the relevant Accounts from time to time shall be applied in accordance with the Cash Administration and Agency Agreement and the Intercreditor Agreement and that available funds standing to the credit of certain Accounts specified in the Cash Administration and Agency Agreement may be used for investments in Eligible Investments.

The Secured Parties have irrevocably waived any right which they may have hereunder in respect of cash deriving from time to time from the pledged claims and amounts standing to the credit of the Accounts which is not in accordance with the foregoing. The Representative of the Noteholders shall not be entitled to collect, withdraw or apply, or issue instructions for the collection, withdrawal or application of, cash deriving from time to time from the pledged claims under the Security Documents except in accordance with the foregoing and the Intercreditor Agreement.

### Article 30 (*Indemnity*)

It is hereby acknowledged that the Issuer has covenanted and undertaken under the Intercreditor Agreement to reimburse, pay or discharge (on a full indemnity basis) on demand, to the extent not already reimbursed, paid or discharged by any Noteholders, all costs, liabilities, losses, charges, expenses, damages, actions, proceedings, claims and demands (including, without limitation, legal fees and any applicable value added tax or similar tax) properly incurred by or made against the Representative of the Noteholders, or by any persons appointed by it to whom any power, authority or discretion may be delegated by it, in relation to the preparation and execution of, the exercise, non exercise or purported exercise of its powers and performance of its duties under, and in any other manner in relation to, these Rules or the Transaction Documents, including but not limited to duly documented and reasonable legal and travelling expenses and any duly documented stamp, issue, registration, documentary and other taxes or duties paid by the Representative of the Noteholders in connection with any action and/or legal proceedings brought or contemplated by the Representative of the Noteholders pursuant the Transaction Documents, or against the Issuer or any other Person for enforcing any obligations hereunder, the Notes or the Transaction Documents, except insofar as the same are incurred because gross negligence (colpa grave) or wilful default (dolo) of the Representative of the Noteholders.

# TITLE IV - THE ORGANISATION OF NOTEHOLDERS UPON A SERVICE OF A TRIGGER NOTICE Article 31 (Powers)

It is hereby acknowledged that, upon service of a Trigger Notice and/or failure by the Issuer to exercise its rights under the Transaction Documents, the Representative of the Noteholders shall, pursuant to the Intercreditor Agreement, be entitled to exercise, in the name and on behalf of the Issuer (also in the interest of the Other Issuer Creditors) and as *mandatario in rem propriam* of the Issuer, all and any of the Issuer's Rights, including the right to give directions and instructions to the relevant parties to the Transaction Documents. In connection with any proposed sale of one or more Claims comprised in the Portfolios, the Representative of the Noteholders may, but shall not be obliged to, convene a Meeting in accordance with the provisions set forth in these Rules to resolve on the proposed sale.

#### TITLE V - GOVERNING LAW AND JURISDICTION

#### **Article 32** (Governing Law and Jurisdiction)

These Rules and, to the extent permitted by law, any non-contractual obligations arising out thereof or in connection therewith, are governed by, and will be construed and interpreted in accordance with, the laws of Italy.

All disputes arising out of or in connection with these Rules, and, to the extent permitted by law, any non-contractual obligations arising out thereof or in connection therewith, including those concerning their validity, interpretation, performance and termination, shall be exclusively settled by the Courts of Rome.

#### SELECTED ASPECTS OF ITALIAN LAW

The following is a summary only of certain aspects of Italian Law that are relevant to the transactions described in this Prospectus and of which prospective Noteholders should be aware. It is not intended to be exhaustive and prospective Noteholders should also read the detailed information set out elsewhere in this Prospectus.

#### 1. THE SECURITISATION LAW

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy.

It applies to securitisation transactions involving a "true" sale (by way of non-gratuitous assignment) of receivables, where the sale is to a company created in accordance with article 3 of Law 130 and all amounts paid by the assigned debtors in respect of the receivables are to be used by the relevant company exclusively to meet its obligations under the notes issued to fund the purchase of such receivables and all costs and expenses associated with the securitisation transaction.

#### 2. THE ASSIGNMENT

The assignment of the claims under Law 130 is governed by article 58, paragraphs 2, 3 and 4, of the Consolidated Banking Act and by article 4 of the Law 130. According to the prevailing interpretation of such provisions, the assignment can be perfected against the originator, assigned debtors and third party creditors by way of publication of the relevant notice in the Official Gazette and registration in the companies' register where the Issuer is enrolled, so avoiding the need for notification to be served on each assigned debtor.

As of the date on which the formalities set forth by the Law 130 have been complied with, the assignment becomes enforceable against:

- (a) the assigned debtors and any creditors of the originator who have not, prior to the date of publication of the notice of assignment in the Official Gazette and registration of the assignment in the register of companies where the assignee is enrolled, commenced enforcement proceedings in respect of the relevant receivables;
- (b) (i) the liquidator or any other bankruptcy officials of the assigned debtors (so that any payments made by an assigned debtor to the purchasing company may not be subject to any claw-back action according to article 67 of Italian Royal Decree No. 267 of 16 March 1942 (*Disciplina del fallimento, del concordato preventivo e della liquidazione coatta amministrativa*) (the "Bankruptcy Law"); and (ii) the liquidator of the originator (provided that the originator has not been subjected to insolvency proceeding prior to the date of publication of the notice of assignment in the Official Gazette and the registration of the assignment in the register of companies where the assignee is enrolled); and
- (c) other permitted assignees of the originator who have not perfected their assignment prior to the date of publication of the notice of assignment in the Official Gazette and the registration of the assignment in the register of companies where the assignee is enrolled.

The benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the assigned receivables will automatically be transferred to and perfected with the same

priority in favour of the company which has purchased the receivables, without the need for any formality or annotation.

As from the date of publication of the notice of the assignment in the Official Gazette and registration of the assignment in the register of companies where the assignee is enrolled, no legal action may be brought against the receivables assigned or the sums derived therefrom other than for the purposes of enforcing the rights of the holders of the notes issued for the purpose of financing the acquisition of the relevant receivables and to meet the costs of the transaction.

Notice of the assignment of the recivables pursuant to the Transfer Agreements has been published in the Official Gazette No. 89 on 31 July 2012 and filed for publication in the companies' register on 27 July 2012.

#### 3. RING-FENCING OF THE ASSETS

By operation of Law 130, the claims relating to each securitisation transaction will, by operation of law, be segregated for all purposes from all other assets of the company which purchases the claims (including for the avoidance of doubt, any other portfolio purchased by the company pursuant to Law 130). Prior to and on a winding up of such a company, such assets will only be available to holders of the notes issued to finance the acquisition of the relevant claims and to certain creditors claiming payment of debts incurred by the company in connection with the securitisation of the relevant assets. In addition, the assets relating to a particular transaction will not be available to the holders of notes issued to finance any other securitisation transaction or to general creditors of the issuer company. However, under Italian law, any creditor of the Issuer would be able to commence insolvency or winding up proceedings against the company in respect of any unpaid debt.

#### 4. CLAW-BACK OF THE SALE OF THE PORTFOLIOS

The sale of the Portfolios by the Originators to the Issuer may be clawed back by a receiver of the Originator under article 67, paragraphs 1(4) and 2 of the Bankruptcy Law but only in the event that the Originator was insolvent when the assignment was entered into and the assignment was executed within three months of the admission of the relevant Originator to compulsory liquidation (*liquidazione coatta amministrativa*) pursuant to Title IV, Heading I, Section III of the Consolidated Banking Act or in cases where paragraph 1(1), 1(2) and 1(3) of article 67 applies, within six months of the admission to compulsory liquidation. Under the Warranty and Indemnity Agreement, the Originator has represented and warranted that it was solvent as of the Transfer Date and on the Issue Date.

### 5. CLAW-BACK ACTION AGAINST THE PAYMENTS MADE TO COMPANIES INCORPORATED UNDER LAW 130

According to article 4 of Law 130, the payments made by an assigned debtor to the Issuer may not be subject to any claw-back action according to article 67 of the Bankruptcy Law.

All other payments made to the Issuer by any party under a Transaction Document in the six months or one year suspected period prior to the date on which such party has been declared bankrupt or has been admitted to the compulsory liquidation may be subject to claw-back action according to article 67 of the Bankruptcy Law.

#### 6. INEFFECTIVENESS OF PREPAYMENTS BY BORROWERS

Pursuant to article 65 of the Bankruptcy Law, in the event that a Borrower (to the extent the same is subject to the Bankruptcy Law) is declared bankrupt, any payment made by the

Borrower during the two-year period prior to the declaration of bankruptcy in respect of any amount which falls due and payable on or after the date of declaration of bankruptcy (including accordingly, any prepayments made under the relevant Loan Agreements) are ineffective *vis-à-vis* the Issuer. In this regard, it has to be noted that a recent case from the Italian Supreme Court (*Corte di Cassazione*, judgement No. 19978 of July 18th 2008) stated that article 65 of the Bankruptcy Law does not apply in case the right of prepayment and the related right to obtain the cancellation of the mortgage securing the prepaid loan are directly and imperatively attributed to the Borrower by specific provisions of law.

However according to the judgment by the Court of Verbania dated 13 August 1999 (published in "Il Fallimento", 2000, II, pages 1047 et seq.), the approach of the Italian Supreme Court is that claw back actions under the Bankruptcy Law should not be prejudicial to the rights of secured creditors. Therefore, the payments made further to an obligation not yet due, arising out from mortgage loans made by the debtor declared bankrupt in the two years prior to the date of the bankruptcy declaration are not subject to the claw back action provided for by article 65 of the Bankruptcy Law, because the ultimate consequence of the declaration of ineffectiveness of payments under article 65 of the Bankruptcy Law is that the secured creditor could not be admitted to the bankruptcy estate as a secured creditor given that the mortgage would have been cancelled by effect of the pre-payment and according to Italian law it could not be reinstated vis-à-vis the receiver. The mentioned judgment by the Court of Verbania is not an isolated judgment, rather refers to previous Italian Supreme Court case law whose subject matter was, as the Italian Supreme Court itself puts it in its judgement No. 20005/2005, the "injustice of turning a secured claim into a non-secured claim".

#### 7. MUTUI FONDIARI

The Mortgage Loans include, *inter alia*, loans qualifying as *mutui fondiari*. In addition to the general legislation commonly applicable to mortgage lending, mortgage loans which qualify as *mutui fondiari* are regulated by specific legislation which provides for a number of rights in favour of the mortgage lender that are not provided for by general legislation.

Agreements relating to *mutui fondiari* executed before 1 January 1994 are regulated by the Italian legislation on *credito fondiario* in force prior to that date, which permitted only credit institutions having special license to grant *mutui fondiari*. All other credit institutions were not permitted to conduct mortgage lending business. As of 1 January 1994, under the new legislative framework under the Consolidated Banking Act, all banks having a general banking license became qualified to enter into *mutui fondiari* agreements. The new legislation applies only to *mutui fondiari* agreements executed, and foreclosure proceedings commenced, on or after 1 January 1994.

With respect to the legislative framework under the Consolidated Banking Act, certain provisions under the *mutuo fondiario*'s legislation entitle the lender to commence or continue foreclosure proceedings also after the declaration of insolvency (*fallimento*) of the affected debtor, to receive repayment from the price paid for a mortgaged property at auction up to the price corresponding to the *mutui fondiari* debt directly from the purchaser (without having to await disbursement by the court) and to an assignment of any rentals earned by the mortgaged property, net of administration expenses and taxes.

With respect to the borrowers, such *mutuo fondiario*'s legislation provides that: (a) the borrower is entitled to a thirty calendar day grace period on payments of instalments; delays in payment of instalments of not over one hundred and eighty days may justify termination of the Mortgage Loan only starting from the eighth (also non consecutive) unpaid instalment; and (b) each time the borrower has repaid one fifth of its original debt, it is entitled to a corresponding reduction of the amount covered by the mortgage; to the extent that a Mortgage Loan is secured by mortgages on more than one asset, the borrower is entitled to the release of

one or more assets from the mortgage to the extent it is able to prove that the remaining assets would be sufficient to ensure a loan to value of at least 120% (or, according to an interpretation, the original loan to value, if higher).

#### 8. ORDINARY ENFORCEMENT PROCEEDINGS

A mortgage lender (whose debt is secured by a mortgage) may commence enforcement proceedings by seeking a court order or injunction for payment in the form of an enforcement order (*titolo esecutivo*) from the court in whose jurisdiction the mortgaged property is located. This court order or injunction must be served on the debtor.

If the mortgage loan was executed in the form of a public deed, a mortgage lender can serve a copy of the mortgage loan agreement, stamped by a notary public with an order for the execution thereof (*formula esecutiva*) directly on the debtor without the need to obtain an enforcement order (*titolo esecutivo*) from the court. A writ of execution (*atto di precetto*) is notified to the debtor together with either the enforcement order (*titolo esecutivo*) or the loan agreement, as the case may be.

Within (10) ten days of filing, but not later than (90) ninety days from the date on which notice of the writ of execution (atto di precetto) is served, the mortgage lender may request the attachment of the mortgaged property. The property will be attached by a court order, which must then be filed with the appropriate land registry (Conservatoria dei Registri Immobiliari). The court will, at the request of the mortgage lender, appoint a custodian to manage the mortgaged property in the interest of the mortgage lender. If the mortgage lender does not make such a request, the debtor will automatically become the custodian of such property.

The mortgage lender is required to search the land registry to ascertain the identity of the current owner of the property and must then serve notice of the request for attachment on the current owner, even if no transfer of the property from the original borrower or mortgagor to a third party purchaser has been previously notified to the mortgage lender. Not earlier than ten days and not later than ninety days after serving the attachment order, the mortgage lender may request the court to sell the mortgaged property. The court may delay its decision in respect of the mortgage lender's request in order to hear any challenge by the debtor to the attachment.

Technical delays may be caused by the need to append to the mortgage lender's request for attachment copies of the relevant mortgage and cadastral (*i.e.* land registry) certificates (*certificati catastali*), which usually take some time to obtain. Law No. 302 should reduce the duration of the enforcement proceedings by allowing the mortgage lender to substitute such cadastral certificates with certificates obtained from public notaries and by allowing public notaries to conduct various activities which were before exclusively within the powers of the courts.

If the court decides to proceed with an auction (*vendita con incanto*) of the mortgaged property, it will usually appoint an expert to value the property and, on the basis of the expert's evaluation, the court shall determine the minimum bid price for the property at the auction.

If an auction fails to result in the sale of the property, the court will arrange a new auction with a lower minimum bid price. The courts have discretion to decide whether, and to what extent, the bid price should be reduced (the maximum permitted reduction being one-fifth of the minimum bid price of the previous auction). In practice, the courts tend to apply the one-fifth reduction. In the event that no offer is made during an auction, the mortgage lender may apply to the court for a direct assignment of the mortgaged property to the mortgage lender

itself. In practice, however, the courts tend to hold auctions until the mortgaged property is sold.

The sale proceeds, after deduction of the expenses of the enforcement proceedings and any expenses for the deregistration of the mortgages, will be applied in satisfaction of the claims of the mortgage lender in priority to the claims of any other creditor of the debtor (except for the claims for taxes due in relation to the mortgaged property and for which the collector of taxes participates in the enforcement proceedings).

Upon payment in full of the purchase price by the purchaser within the specified time period, title to the property will be transferred after the court issues an official decree ordering the transfer. In the event that proceedings have been commenced by creditors other than the mortgage lender, the mortgage lender will have priority over such other creditors in having recourse to the assets of the borrower during such proceedings, such recourse being limited to the value of the mortgaged property.

The average length of enforcement proceedings from the court order or injunction of payment to the final sharing out is between six and seven years. In the medium-sized central and northern Italian cities, it can be significantly less whereas in major cities or in southern Italy, the duration of the procedure can significantly exceed the average. Law No. 302 has been passed with the aim of reducing the duration of enforcement proceedings.

#### 9. MUTUI FONDIARI ENFORCEMENT PROCEEDINGS

The Mortgage Loans include *inter alia* mortgage loans qualifying as *mutui fondiari*. Enforcement proceedings in respect of *mutui fondiari* commenced after 1 January 1994 are currently regulated by article 38 *et seq.* of the Consolidated Banking Act in which several exceptions to the rules applying to enforcement proceedings in general are provided for. In particular, there is no requirement to serve a copy of the loan agreement directly on the borrower and the mortgage lender of mutui fondiari is entitled to commence or continue enforcement proceedings after the debtor is declared insolvent or insolvency proceedings have been commenced.

Moreover, the custodian appointed to manage the mortgaged property in the interest of the *fondiario* lender pays directly to the lender the revenues recovered on the mortgaged property (net of administration expenses and taxes). After the sale of the mortgaged property, the court orders the purchaser (or the assignee in the case of an assignment) to pay that part of the price corresponding to the *mutui fondiari* lender's debt directly to the lender.

Pursuant to article 58 of the Consolidated Banking Act, as amended by Article 12 of Decree No. 342, the Issuer will be entitled to benefit from such procedural advantages which apply in favour of a lender of a *mutuo fondiario* loan.

Enforcement proceedings for mutui fondiari commenced on or before 31 December 1993 are regulated by the Royal Decree No. 646 of 16 July 1905, which confers on the *mutuo fondiario* lender rights and privileges that are not provided for by the Consolidated Banking Act with respect to enforcement proceedings on mutui fondiari commenced on or after 1 January 1994. Such additional rights and privileges include the right of the bank to commence enforcement proceedings against the borrower even after the real estate has been sold to a third party who has taken the place of the borrower as debtor under the *mutuo fondiario* provided that the name of such third party has not been notified to the lender. Further rights include the right of the bank to apply for the real estate to be valued by the court after commencement of enforcement proceedings, at the value indicated in the *mutuo fondiario* agreement without having to have a further expert appraisal.

#### 10. PRIORITY OF INTEREST CLAIMS

Pursuant to article 2855 of the Italian Civil Code, the claims of a mortgage lender in respect of interest may be satisfied in priority to the claims of all other unsecured creditors in an amount equal to the aggregate of (i) the interest accrued at the contractual rate in the calendar year in which the initial stage of the enforcement proceedings are taken and in the two preceding calendar years; and (ii) the interest accrued at the legal rate (currently 2.5%) from the end of the calendar year in which the initial stage of the enforcement proceeding is commenced to the date on which the mortgaged property is sold. Any amount recovered in excess of this will be applied to satisfy the claims of any other creditor participating in the enforcement proceedings. The mortgage lender will be entitled to participate in the distribution of any such excess as an unsecured creditor. The balance, if any, will then be paid to the debtor.

#### 11. ARTICLE 120 TER OF THE CONSOLIDATED BANKING ACT

Article 120-ter of the Consolidated Banking Act provides that any provision imposing a prepayment penalty in case of early redemption of mortgage loans is null and void with respect to mortgage loan agreements entered into, with an individual as borrower, for the purpose of purchasing or refurbishing real estate properties destined to residential purposes or to carry out the borrower's own professional and economic activity.

The Italian banking association ("ABI") and the main national consumer associations have reached an agreement (the "Prepayment Penalty Agreement") regarding the equitable renegotiation of prepayment penalties with certain maximum limits calculated on the outstanding amount of the loans (the "Substitutive Prepayment Penalty"). containing the following main provisions: (i) with respect to variable rate loan agreements, the Substitutive Prepayment Penalty should not exceed 0.50% and should be further reduced to (a) 0.20% in case of early redemption of the loan carried out within the third year from the final maturity date and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (ii) with respect to fixed rate loan agreements entered into before 1 January 2001, the Substitutive Prepayment Penalty should not exceed 0.50%, and should be further reduced to: (a) 0.20%, in case of early redemption of the loan carried out within the third year from the final maturity date; and (b) zero, in case of early redemption of the loan carried out within two years from the final maturity date, (iii) with respect to fixed rate loan agreements entered into after 31 December 2000, the Substitutive Prepayment Penalty should be equal to: (a) 1.90% if the relevant early redemption is carried out in the first half of loan's agreed duration; (b) 1.50% if the relevant early redemption is carried out following the first half of loan's agreed duration, provided however that the Substitutive Prepayment Penalty should be further reduced to: (x) 0.20%, in case of early redemption of the loan carried out within three years from the final maturity date; and (y) zero, in case of early redemption of the loan carried out within two years from the final maturity date.

The Prepayment Penalty Agreement introduces a further protection for borrowers under a "safeguard" equitable clause (the "*Clausola di Salvaguardia*") in relation to those loan agreements which already provide for a prepayment penalty in an amount which is compliant with the thresholds described above. In respect of such loans, the *Clausola di Salvaguardia* provides that: (1) if the relevant loan is either: (x) a variable rate loan agreement; or (y) a fixed rate loan agreement entered into before 1 January 2001; the amount of the relevant prepayment penalty shall be reduced by 0.20%; (2) if the relevant loan is a fixed rate loan agreement entered into after 31 December 2000, the amount of the relevant prepayment penalty shall be reduced by (x) 0.25% if the agreed amount of the prepayment penalty was equal or higher than 1.25%; or (y) 0.15%, if the agreed amount of the prepayment penalty was lower than 1.25%.

Finally the Prepayment Penalty Agreement sets out specific solutions with respect to hybrid

rate loans which are meant to apply to the hybrid rates the provisions, as more appropriate, relating respectively to fixed rate and variable rate loans.

#### 12. ARTICLE 120 QUATER OF THE CONSOLIDATED BANKING ACT

Article 120-quater of the Consolidated Banking Act provides that any borrower may at any time prepay the relevant loan funding such prepayment by a loan granted by another lender which will be subrogated pursuant to article 1202 of the Italian civil code (*surrogato per volontà del debitore*) in the rights of the former lender, including the mortgages (without any formalities for the annotation of the transfer with the land registry, which shall be requested by enclosing a certified copy of the deed of subrogation (*atto di surrogazione*) to be made in the form of a public deed (*atto pubblico*) or of a deed certified by a notary public with respect to the signature (*scrittura privata autenticata*) without prejudice to any benefits of a fiscal nature.

In the event that the subrogation is not completed within thirty days from the relevant request from the succeeding lender to the former lender to start the relevant cooperation procedures, the original lender shall pay to the borrower an amount equal to 1% of the amount of the loan for each month or part thereof of delay, provided that if the delay is due to the succeeding lender, the latter shall repay to the former lender the delay penalty paid by it to the borrower.

#### 13. CANCELLATION OF MORTGAGES

Art. 40-bis of the Consolidated Banking Act and Law decree No. 7 of 31 January 2007 (the "Bersani Decree") as converted into law by Law No. 40 of 2 April 2007, as applicable, set out certain provisions relating to mortgage loans which include, *inter alia*, simplified procedures meant to allow a more prompt cancellation of mortgages securing loans granted by banks or financial intermediaries in the event of a documented repayment in full by the debtors of the amounts due under the loans. While such provisions do not impact on the monetary rights of the lenders under the loans (lenders retain the right to oppose the cancellation of a mortgage), the impact on the servicing procedures in relation to the applicable loan agreements cannot be entirely assessed at this time.

# 14. CONVENTION BETWEEN THE MINISTRY OF ECONOMY AND FINANCE, THE ITALIAN BANKING ASSOCIATION AND ASSOCIATIONS OF THE REPRESENTATIVE OF THE COMPANIES

On the 3rd of August 2009, the Ministry of Economy and Finance, the ABI (*Associazione Bancaria Italiana*) and the associations of the representative of the companies signed a convention about the temporary suspension of small and middle-sized companies debts to the banking system in order to help companies striked by the financial crisis (the "PMI Convention").

The Convention provides, *inter alia*, the possibility of a 12 (twelve) months suspension for the payment of the principal component of the loan's instalments (the "**Suspension**") and the postponement of the payment of such instalments at the end of the original amortization plan of the relevant loan.

All the small and middle-sized companies which (i) on the 30th of September 2008 were solvent (*in bonis*), and (ii) at the moment of the submission of the request, had no financings classified as "*restructured*" (*ristrutturato*) or as "*non-performing*" (*in sofferenza*) and were not subject to enforcement proceedings, are allowed to request the Suspension. Originally, the request for Suspension could be submitted within the 30th of June 2010. On 15 June 2010, an agreement between the Ministry of Economy and Finance, the ABI (*Associazione Bancaria* 

*Italiana*) and the associations of the representative of the companies has extended the date within which the request for the Suspension could be submitted until 31 July 2011.

Only the instalments not yet expired or expired (not paid or paid in part) from not more than 180 days before the date of submission of the request for Suspension may be suspended.

ABI has clarified on one hand that securitised claims have not been expressly excluded from the object of the Convention and that assigning banks have to do any reasonable effort to satisfy the requests for Suspension also in respect of securitized claims.

Furthermore, on 28 February 2012 the ABI and the Ministry of Economy and Finance entered into a new convention (the "New PMI Convention") providing for, inter alia: (i) a 12-month suspension of payments of instalments in respect of the principal of medium-and long-term loans, which did not benefit from the Suspension. The suspension applies on the condition that the instalments (A) are timely paid or (B) in case of late payments, the relevant instalment has not been outstanding for more than 90 days from the date of request of the suspension; and (ii) the possibility for small and middle-sized companies that have not already requested a Suspension to request an extension of the duration of the relevant loans for a period equal to the residual duration of the relevant loans and in any case for a maximum period of two years for unsecured loans and of three years for mortgage loans.

The Originators have acceded to the New PMI Convention.

#### TAXATION IN THE REPUBLIC OF ITALY

The following is a general summary of current Italian law and practice relating to certain Italian tax considerations concerning the purchase, ownership and disposition of the Class A Notes. It does not purport to be a complete analysis of all tax considerations that may be relevant to your decision to purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of prospective beneficial owners of the Notes, some of which may be subject to special rules. The following summary does not discuss the treatment of the Notes that are held in connection with a permanent establishment or fixed base through which a non Italian resident beneficial owner carries on business or performs professional services in Italy.

This summary is based upon tax laws and practice of Italy in effect on the date of this Offering Circular which are however subject to a potential retroactive change. Prospective noteholders should consult their tax advisers as to the consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws.

Prospective noteholders should in any event seek their own professional advice regarding the Italian or other jurisdictions' tax consequences of the subscription, purchase, ownership and disposition of the Notes, including the effect of Italian or other jurisdictions' tax rules on residence of individuals and entities.

#### 1. INCOME TAX

Under the current legislation, pursuant to the combined provision of Article 6, paragraph 1, of Law 130, Articles 1 and 2 of Legislative Decree No. 239 of 1 April 1996, as amended and restated ("Law 239") and Law Decree No. 138/2011 converted into Law No. 148/2011 (the ("Decree 138/2011"), payments of interest and other proceeds in respect of the Class A Notes:

(i) will be subject to *imposta sostitutiva* at the rate of 20 per cent. in the Republic of Italy levied as final tax if made to beneficial owners who are: (i) individuals resident in the Republic of Italy for tax purposes; (ii) Italian resident non-commercial partnerships; (iii) Italian resident public and private entities, other than companies, not carrying out commercial activities as their exclusive or principal purpose (including the Italian State and public entities); and (iv) Italian resident entities exempt from corporate income tax.

Payments of interest and other proceeds in respect of the Class A Notes will not be included in the general taxable base of the above mentioned individuals, partnerships and entities.

The imposta sostitutiva will be levied by the Italian resident qualified financial intermediaries that will intervene, in any way, in the collection of interest and other proceeds on the Class A Notes or in the transfer of the Class A Notes;

(ii) will be subject to *imposta sostitutiva* at the rate of 20 per cent rate in the Republic of Italy levied as provisional tax if made to beneficial owners who are: (i) individuals resident in the Republic of Italy for tax purposes; (ii) Italian resident non-commercial partnerships; and (iii) Italian resident public and private entities, other than companies; any of them engaged in an entrepreneurial activity – to the extent permitted by law – to which the Class A Notes are connected;

- (iii) will not be subject to the *imposta sostitutiva* if made to beneficial owners who are: (i) Italian resident corporations, commercial partnerships or permanent establishments in Italy of non resident corporations to which the Class A Notes are effectively connected; (ii) Italian resident collective investment funds, SICAVs, Italian resident pension funds referred to in Legislative Decree No. 124 of 21 April 1993, as further superseded by Legislative Decree 5 December 2005, No. 252 and Italian resident real estate investment funds established pursuant to article 37 of Legislative Decree No. 58 of February 24, 1998 and article 14-bis of law No. 86 of January 25, 1994; (iii) Italian resident individuals who have entrusted the management of their financial assets, including the Class A Notes, to an Italian authorised financial intermediary and have opted for the so-called risparmio gestito regime according to Article 7 of Legislative Decree No. 461 of 21 November 1997 the "Asset Management Option" and (iv), non Italian resident with no permanent establishment in Italy to which the Class A Notes are effectively connected, provided that:
  - (a) they are (i) resident of a country which allows an adequate exchange of information with Italy, which are those countries listed in a ministerial decree to be issued under article 168-bis of Presidential Decree No. 917 of 22 December 1986 and, until the year of enactment of the new decree, in the ministerial decree of 4 September 1996, as amended from time to time, or, in the case of qualifying institutional investors not subject to tax, they are established in such a country, (ii) supranational entities set up in accordance with an international treaty executed by Italy, or (iii) central banks of foreign countries, or other entities also managing the official reserves of such countries; and
  - (b) the Class A Notes are deposited directly or indirectly: (i) with a bank or an Italian securities dealing firm ("SIM") resident in Italy; (ii) with the Italian permanent establishment of a non-resident bank or brokerage company which is electronically connected with the Italian Ministry of Economy and Finance; or (iii) with a non-resident entity or company which has an account with a centralised clearance and settlement system which has a direct relationship with the Italian Ministry of Economy and Finance; and
  - (c) as for recipients characterizing under category (a)(i) above, the banks or brokers mentioned in (b) above receive a self-declaration from the beneficial owner of the interest which states that the beneficial owner is a resident of that country. The self-declaration must be in conformity with the model approved by the Ministry of Economy and Finance (approved with Decree of the Ministry of Economy and Finance 12 December 2001, published on the Ordinary Supplement No. 287 to the Official Journal No. 301 of 29 December 2001) and its further amendments and is valid until revoked by the investor. A self statement does not have to be filed if an equivalent self-declaration (including Form 116/IMP) has already been submitted to the same intermediary for the same or different purposes; in the case of institutional investors not subject to tax, the institutional investor shall be regarded as the beneficial owner and the relevant self-declaration shall be produced by the management company; and
  - (d) the banks or brokers mentioned in (b) and (c) above receive all necessary information to identify the non-resident beneficial owner of the deposited Class A Notes and all necessary information in order to determine the amount of interest that such beneficial owner is entitled to receive.

Non-resident holders are subject to the 20 per cent. tax (*imposta sostitutiva*) on interest and other proceeds on the Class A Notes if any or all of the above conditions (a), (b), (c) and (d) are not satisfied. In this case, *imposta sostitutiva* may be reduced under double taxation treaties, where applicable.

Italian resident individuals holding Class A Notes not in connection with an entrepreneurial activity who have opted for the Asset Management Option are subject to a annual substitute tax levied at the rate of 20 per cent (the "Asset Management Tax") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include interest and other proceeds accrued on the Class A Notes) . The Asset Management Tax is applied on behalf of the taxpayer by the managing authorised intermediary.

Interest and other proceeds accrued on the Class A Notes held by Italian resident corporations, commercial partnerships, individual entrepreneurs as well as Italian resident public and private entities, other than companies, holding Class A Notes in connection with entrepreneurial activities or permanent establishments in Italy of non-resident corporations to which the Class A Notes are effectively connected, are included in the taxable base for the purposes of: (i) corporate income tax (*imposta sul reddito delle società*, "IRES"); or (ii) individual income tax (*imposta sul reddito delle persone fisiche*, "IRPEF") plus local surtaxes, if applicable; under certain circumstances, such interest is included in the taxable basis of the regional tax on productive activities (*imposta regionale sulle attività produttive*, "IRAP").

Where the holder of the Class A Notes is an Italian resident investment fund subject to the tax regime provided by Law No. 77 of 23 March 1983 ("Fund"), interest payments relating to the Class A Notes are not subject to *imposta sostitutiva*. but must be included in the management results of the Fund accrued at the end of each tax period. The Fund will not be subject to taxation on such result, but a substitutive tax, up to 20 per cent., will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Starting from 1 January 2001, Italian resident pension funds are subject to an 11 per cent annual substitute tax (the "**Pension Fund Tax**") on the increase in value of the managed assets accrued at the end of each tax year.

Any positive difference between the nominal redeemable amount of the Class A Notes and their issue price is deemed to be interest for capital income (redditi di capitale) tax purposes. In general terms, income from capital is treated as a separate classification of tax liability only for tax-payers who are not engaged in entrepreneurial activities.

#### 2. CAPITAL GAINS

Any capital gain realised upon the sale for consideration or redemption of Class A Notes would be treated for the purpose of corporate income tax and of individual income tax as part of the taxable business income of Noteholders (and, in certain cases, depending on the status of the Noteholders, may also be included in the taxable basis of IRAP), and therefore subject to tax in Italy according to the relevant tax provisions, if derived by Noteholders who are:

- (a) Italian resident corporations;
- (b) Italian resident commercial partnerships;
- (c) permanent establishments in Italy of foreign corporations to which the Class A Notes are effectively connected; or
- (d) Italian resident individuals carrying out a commercial activity, as to any capital gains realised within the scope of their commercial activity.

284

Pursuant to Legislative Decree No. 461 of 21 November 1997, any capital gain realised by Italian resident individuals holding Class A Notes not in connection with an entrepreneurial activity and by certain other persons upon the sale for consideration or redemption of the Class A Notes would be subject to an *imposta* sostitutiva at the rate of 20 per cent. Under the tax declaration regime, which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in an entrepreneurial activity, imposta sostitutiva on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by Italian resident individual noteholders holding Class A Notes not in connection with an entrepreneurial activity pursuant to all disposals on Class A Notes carried out during any given fiscal year. These individuals must report the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax declaration to be filed with the Italian tax authority for such year and pay imposta sostitutiva on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Specific provisions have been stated by Decree 138/2011 with reference to capital losses realized before January 1, 2012 to be carried forward against capital gains realized after January 1, 2012.

As an alternative to the tax declaration regime, Italian resident individual noteholders holding Class A Notes not in connection with an entrepreneurial activity may elect to pay imposta sostitutiva separately on the capital gains realised upon each sale or redemption of the Class A Notes (the "Risparmio Amministrato" regime). Such separate taxation of capital gains is permitted subject to: (i) the Class A Notes being deposited with Italian banks, società di intermediazione mobiliare (SIM) or certain authorised financial intermediaries; and (ii) an express election for the Risparmio Amministrato regime being timely made in writing by the relevant Noteholder. The financial intermediary, on the basis of the information provided by the taxpayer, accounts for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of Class A Notes (as well as in respect of capital gains realised at revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authority on behalf of the taxpayer, deducting a corresponding amount from proceeds to be credited to the Noteholder. Under the Risparmio Amministrato regime, where a sale or redemption of Class A Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised in the same tax year or in the following tax years up to the fourth. Specific provisions have been stated by Decree 138/2011 with reference to capital losses realized before January 1, 2012 to be carried forward against capital gains realized after January 1, 2012. Under the Risparmio Amministrato regime, the Noteholder is not required to report capital gains in its annual tax declaration.

Any capital gains realised by Italian resident individuals holding Class A Notes not in connection with an entrepreneurial activity who have elected for the Asset Management Option will be included in the computation of the annual increase in net value of the managed assets accrued, even if not realised, at year end, subject to the Asset Management Tax to be applied on behalf of the taxpayer by the managing authorised intermediary. Under the Asset Management Option, any depreciation of the managed assets accrued at year end may be carried forward against an increase in the net value of the managed assets accrued in any of the four succeeding tax years. Under the Asset Management Option, the Noteholder is not required to report capital gains realised in its annual tax declaration.

Any capital gains realised by a Class A Noteholder which is a Fund (as defined above) will be included in the results of the relevant portfolio accrued at the end of the tax period. The Fund will not Be subject to taxation on such result, but a substitutive tax, up to 20 per cent., will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders.

Any capital gains realised by Noteholders who are Italian resident pension funds will be included in the computation of the taxable basis of Pension Fund Tax.

The 20 per cent. *imposta sostitutiva* may in certain circumstances be payable on capital gains realised upon sale for consideration or redemption of Class A Notes by non Italian resident persons or entities without a permanent establishment in Italy to which the Class A Notes are effectively connected, if the Class A Notes are held in Italy.

However, pursuant to Article 23 of Presidential Decree of 22 December 1986, No. 917, any capital gains realised, by non-Italian residents without a permanent establishment in Italy to which the Class A Notes are effectively connected, through the sale for consideration or redemption of Class A Notes are exempt from taxation in Italy to the extent that the Class A Notes are listed on a regulated market in Italy or abroad and in certain cases subject to filing of required documentation, even if the Class A Notes are held in Italy. The exemption applies provided that the non Italian investor promptly file with the authorized financial intermediary an appropriate affidavit (*autodichiarazione*) stating that the investor is not resident in Italy for tax purposes.

In case the Class A Notes are not listed on a regulated market in Italy or abroad:

- non Italian resident beneficial owners of the Class A Notes with no permanent (1) establishment in Italy to which the Class A Notes are effectively connected are exempt from imposta sostitutiva in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Class A Notes if they are resident, for tax purposes, in a country which allows an adequate exchange of information with Italy, which are those countries listed in a ministerial decree to be issued under article 168-bis of Presidential Decree No. 917 of December 22, 1986 and, until the year of enactment of the new decree, in the ministerial decree of 4 September 1996, as amended from time to time, or, in the case of qualifying institutional investors not subject to tax, they are established in such a country (see Article 5, paragraph letter a) of Italian Legislative Decree No. 461 of 21 November 1997); in this case, if non Italian residents without a permanent establishment in Italy to which the Class A Notes are effectively connected have opted for the Risparmio Amministrato regime or the Asset Management Option, exemption from Italian capital gains tax will apply upon condition that they file in due course with the authorised financial intermediary an appropriate self-declaration (autocertificazione) stating that they meet the requirements indicated above; and
- (2) in any event, non Italian resident persons or entities without a permanent establishment in Italy to which the Class A Notes are effectively connected that may benefit from a double taxation treaty with the Republic of Italy, providing that capital gains realised upon the sale or redemption of the Class A Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of Class A Notes; in this case, if non Italian residents without a permanent establishment in Italy to which the Class A Notes are effectively connected have opted for the *Risparmio Amministrato* regime or the Asset Management Option, exemption from Italian capital gains tax will apply upon the condition that they file in due course with the authorised financial intermediary appropriate documents which include, *inter alia*, a statement issued by the competent tax authorities of the country of residence of the non Italian residents.

#### 3. ANTI - ABUSE PROVISIONS AND GENERAL ABUSE OF LAW DOCTRINE

As confirmed by the Italian Supreme Court (Corte di Cassazione), amongst all, in sentence No. 30055 of 23 December 2008, the Italian general anti-abuse provision of Article 37bis of Presidential Decree No. 600 of 29 September 1973, the European Court of Justice doctrine of the "abuse of law" (also referred to as "abuse of rights") and previous Supreme Court case law

on the voidance of contracts simulated or entered into for a cause contrary to the law, can be used, jointly or alternatively, by the Italian Tax Authority to deny the Italian tax benefits or preferential regime possibly associated with the adoption of a given contractual or transactional structure, subject to the demonstration that such contract or transaction has been implemented essentially for the purpose of obtaining the associated Italian tax benefit or preferential regime. Consequently, it is not possible to exclude, if the parties involved are not able to demonstrate that this securitisation transaction has been implemented not essentially for the purpose of obtaining a tax saving or reduction and that there are alternative or concurring financial motivation that are not of a merely marginal or theoretical character, that the tax regime of the securitisation as herein outlined is disallowed by the Italian Tax Authority, thereby possibly causing, amongst other, the recharacterisation of the Notes as shares-like securities or in any case securities not having the legal nature of a bond.

#### 4. INHERITANCE AND GIFT TAXES

Italian inheritance and gift taxes were first abolished by Law No. 383 of 18 October, 2001 in respect of gifts made or succession proceedings started after 25 October, 2001 and then reintroduced by Law Decree No. 262 of 3 October 2006, converted with amendments into Law No. 286 of 24 November 2006, entered into force on 29 November 2006 and further modified by Law No. 296 of 27 December 2006, effective as of 1 January 2007.

Further to the above amendments to the legislation in force, the transfer by inheritance of the Notes is currently subject to inheritance tax at the following rates:

- (i) when the beneficiary is the spouse or a relative in direct lineage, the value of the Notes transferred to each beneficiary exceeding Euro 1,000,000 is subject to a 4 per cent. rate;
- (ii) when the beneficiary is a brother or sister, the value of the Notes exceeding Euro 100,000 for each beneficiary is subject to a 6 per cent. rate;
- (iii) when the beneficiary is a relative within the fourth degree or is a relative-in-law in direct and collateral lineage within the third degree, the value of the Notes transferred to each beneficiary is subject to a 6 per cent. rate;
- (iv) in any other case, the value of the Notes transferred to each beneficiary is subject to an 8 per cent. rate.

The transfer of the Notes by donation is subject to gift tax at the same rates as in case of inheritance.

#### 5. EU DIRECTIVE ON THE TAXATION OF SAVINGS INCOME

On June 3, 2003, the European Council of Economics and Finance Ministers adopted a Directive on the taxation of savings income under which Member States are required starting from July 1, 2005, to provide to the tax authorities of another Member State the details of payments of interest (or similar income) paid by a person within its jurisdiction, qualifying as paying agent under the Directive, to an individual resident in that other Member State, except that, for a transitional period, Luxembourg and Austria are required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain Third Countries). Luxembourg and Austria may however elect to introduce automatic exchange of information during the transitional period, in which case they will no longer apply the withholding tax.

The Council Directive was implemented in Italy by Legislative Decree No. 84 of 18 April 2005. Pursuant to said decree Italian paying agents (e.g., banks, SIMs, SGRs., financial companies and fiduciary companies resident in Italy for tax purposes, permanent establishments in Italy of non-resident persons as well as any other person resident in Italy for tax purposes paying interest for professional or commercial reasons) are required to report to the Italian tax authorities details of interest payments made from 1 July 2005 to individuals which qualify as beneficial owners thereof and are resident for tax purposes in another EU Member State. Such information must be transmitted by the Italian tax authorities to the competent authorities of the State of residence of the beneficial owner of the interest payment by 30th June of the fiscal year following the fiscal year in which said interest payment is made.

Prospective investors resident in a Member State of the European Union should consult their own legal or tax advisers regarding the consequences of the Directive in their particular circumstances.

#### 6. TAX MONITORING

Pursuant to Law Decree No. 167 of 28 June, 1990, converted by Law No. 227 of 4 August, 1990, as amended, individuals resident in Italy who, at the end of the fiscal year, hold investments abroad or have financial activities abroad must, in certain circumstances, disclose the aforesaid and related transactions to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return). Such obligation is not provided if, *inter alia*, each of the overall value of the foreign investments or financial activities held at the end of the fiscal year, and the overall value of the related transfers carried out during the relevant fiscal year, does not exceed Euro 10,000.

#### 7. STAMP DUTY

Article 13, paragraph 2-ter, of the First Part of the Tariff attached to Presidential Decree No. 642 of 26 October 1972 ("Stamp Duty Law"), as amended by Law Decree No. 201 of 6 December 2011, converted into Law No. 214 of 22 December 2011, introduced a stamp duty on the value of the financial products and/or financial instruments included in the statement sent to the clientele as of 1 January 2012 ("Statement Duty"). The statement is deemed to be sent to the clientele once a year, irrespective of any legal or contractual obligation to do so. The Statement Duty is levied at the rate of 0.1 per cent in 2012 (but in any case not exceeding € 1,200.00) and 0.15 percent in 2013 and in any of the following years. According to a literal interpretation of the amended Article 13, the Statement Duty seems to be applicable to the value of the Notes included in any statement sent to the clientele, as the Notes are to be characterized for tax purposes as "financial instruments". The relevant taxable basis shall be determined as of the sending of each periodic statement and, therefore, shall be liquidated taking into account the period of the relevant statement.

The stamp duty must be levied on:

- (i) whoever executes or takes advantage (in Italian known as the "caso d'uso") of the document included in the Tariff, as the main obligors (*obbligati in via principale*);
- (ii) whoever signs, receives, accepts or negotiates the document included in the Tariff, if the stamp duty has not already been properly paid, as the joint obligors (*obbligati in via solidale*).

The Italian Ministerial Decree dated May 24, 2012 stated that the Stamp Duty has to be applied by the financial intermediary which has the relationship with the clientele and qualified it as an "ente gestore" (managing entity). Such "ente gestore", according to the law,

is the financial intermediary that has direct or indirect contact with the clientele for the purposes of periodical reports relating to the relationship in place and the statement made in any form.

The Issuer seems not to fall within the list of the obligors, as set forth in the Stamp Duty Law, neither in the definition of "ente gestore". However, the lack of an interpretation by the Italian Tax Authority with respect to securitization transactions and the broad scope of the Statement Duty could lead the Italian Tax Authority to a different interpretation and may induce the Authority to include the Issuer among the obligors.

#### SUBSCRIPTION AND SALE

Pursuant to the Notes Subscription Agreement to be entered into on or about the Issue Date among the Originators, the Subscribers, the Issuer, the Arrangers and the Representative of the Noteholders, the Originators agree to subscribe and pay the Issuer for the Notes at the issue price of one hundred per cent. (100%) of their respective principal amount and shall appoint the Representative of the Noteholders to act as the representative of the Noteholders.

The Notes Subscription Agreement will be subject to a number of conditions and may be terminated in certain circumstances prior to the payment of the Issue Price to the Issuer.

#### UNITED STATES OF AMERICA

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "Securities Act") or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold within the United States, or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. The terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of this offering, an offer or sale of the Notes within the United States by a dealer (whether or not participating in this offering) may violate the registration requirements of the Securities Act.

#### REPUBLIC OF ITALY

Each of the Issuer and the Originators, under the Notes Subscription Agreement, has acknowledged that no action has or will be taken by it, its affiliates or any other person acting on its behalf which would allow an offering (or an "offerta al pubblico di prodotti finanziari") of the Notes to the public in the Republic of Italy unless in compliance with the relevant Italian securities, tax and other applicable laws and regulations. Individual sales of the Notes to any Persons in the Republic of Italy may only be made in accordance with Italian securities, tax and other applicable laws and regulations.

Each of the Issuer and the Originators, under the Notes Subscription Agreement, has acknowledged that no application has been made by it to obtain an authorisation from CONSOB for the public offering of the Notes in the Republic of Italy.

Accordingly, each of the Issuer and the Originators, has represented and agreed that it has not offered, sold or delivered, and will not offer, sell or deliver, and has not distributed and will not distribute and has not made and will not make available in the Republic of Italy the Notes, this Offering Circular nor any other offering material relating to the Notes other than to qualified investors ("investitori qualificati"), as defined on the basis of the Directive 2003/71/EC (Directive of the European Parliament and of the Council of 4 November 2003 on the prospectus to be published when securities are offered to the public or admitted to trading), as amended by 2010 PD Amending Directive (as defined below), pursuant to article 100, paragraph 1, letter (a), of Italian legislative decree No. 58 of 24 February 1998 (the "Consolidated Financial Act") or in other circumstances where an express exemption from compliance with the restrictions to the offerings to the public applies, as provided under the Consolidated Financial Act or by article 34-ter of CONSOB regulation No. 11971/1999, and in accordance with applicable Italian laws and regulations. In any case the Class B Notes may not be offered to individuals or entities not being qualified investors in accordance with the Securitisation Law. Additionally, the Class B Notes may not be offered to any investor qualifying as "cliente al dettaglio" pursuant to CONSOB regulation No. 16190 of 29 October 2007.

Any offer, sale or delivery of the Notes in the Republic of Italy shall be made only by banks,

290

investment firms or financial companies permitted to conduct such activities in Italy in accordance with Legislative Decree No. 385 of 1 September 1993, as amended, the Consolidated Financial Act, CONSOB Regulation No. 16190 of 29 October 2007 and any other applicable laws and regulations and in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy.

In connection with the subsequent distribution of the Notes in the Republic of Italy, article 100-bis of the Consolidated Financial Act requires to comply also, on the secondary market, with the public offering rules and disclosure requirements set forth under the Consolidated Financial Act and relevant CONSOB implementing regulations, unless the above subsequent distribution is exempted from those rules and requirements according to the Consolidated Financial Act and relevant CONSOB implementing regulations.
